Entries provide students with more detailed information and depth of discussion than typically found in an encyclopedia entry but lack the jargon, detail, and density of a journal article. Key Features: Includes contributions from a variety of renowned experts; Focuses on women and public leadership in the American context, women's global leadership, women as leaders in the business sector, the nonprofit and social service sector, religion, academia, public policy, advocacy, the media, sports, and the arts; Addresses both the history of leadership within the realm of women and gender with examples from the lives of pivotal figures and the institutional settings and processes that lead to both opportunities and constraints unique to that realm; Offers an approachable, clear writing style directed at student researchers; Features more depth than encyclopedia entries, with most chapters ranging between 6,000 and 8,000 words while avoiding the jargon and density often found in journal articles or research handbooks; Provides a list of further readings and references after each entry as well as a detailed index and an online version of the work to maximize accessibility for today's student audience.
