A TASER CEW is a hand held device that delivers a 400 volt pulse with a duration tuned to control the skeletal muscles without affecting the heart at a distance of up to 6.5 meters over tiny wires. If necessary it begins with an arcing voltage of 50 000 V to penetrate thick clothing. The 50 000 V is never delivered to the body itself. Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation this book will have significant utility.
