It teaches you sensing and electronic drive circuits and how to implement these circuits in programming languages like Android, LabVIEW, Java and Python. The book also shows you how to leverage and use the menu command structure used in the AndroiDAQ open source firmware for the many data acquisition tasks that are used in robotic and product design. Many examples are given to allow you to control your AndroiDAQ module in ways other popular development modules can not via USB, Bluetooth or Wi-Fi communication.
