Automating Your House Mitchell Grider, 2021-07-17 Home automation or domotics is building automation for a home called a smart home or smart house. A home automation system will monitor and/or control home attributes such as lighting, climate, entertainment systems, and appliances. It may also include home security such as access control and alarm systems. Don't be left behind, don't throw away money to your utility company, and stop wasting hours of your life with mundane tasks that can be automated in a smart home. This book will provide you with all of the tools you need to design, install, and operate your home automation system today.

The Ridiculously Simple Guide to Google Home Hub Phil Sharp, 2018-10-11 In 2016, Google announced it was getting into the home assistant business with Google Home. The smart device allowed users to essentially have a computer controlled by their voice. Google was just getting started. In 2017, Google released two more devices: the Google Home Mini and Google Home Max. Finally, in 2018, Google announced that its smart speaker would get a whole lot more visual with the Google Home Hub. The Google Home Hub is a hybrid of two worlds: a device that works best with both your voice and by touch. The same voice commands as the non-touch Google Home's are there, but a screen gives it the extra touch you need to
