

The background of the cover is a detailed, high-relief carving of a Maya stone relief. It depicts a central figure, possibly a deity or ruler, with a large, ornate headdress and a long, flowing garment. The figure is surrounded by intricate carvings of other figures and symbols, all in a warm, golden-brown hue. The lighting creates strong shadows, emphasizing the three-dimensional quality of the relief.

The Decipherment of Ancient Maya Writing Stephen D. Houston, Oswaldo Fernando Chinchilla Mazariegos, David Stuart, 2001 The Decipherment of Ancient Maya Writing is an important story of intellectual discovery and a tale of code breaking comparable to the interpreting of Egyptian hieroglyphs and the decoding of cuneiform This book provides a history of the interpretation of Maya hieroglyphs Introductory essays offer the historical context and describe the personalities and theories of the many authors who contributed to the understanding of these ancient glyphs **The Decipherment of Ancient Maya Writing** Stephen D. Houston (anthropologue.), Oswaldo Fernando Chinchilla Mazariegos, David Stuart (archéologue.), The New Catalog of Maya Hieroglyphs: The Classic period inscriptions Martha J. Macri, Matthew GeorgeLooper, 2003 For hundreds of years Maya artists and scholars used hieroglyphs to record their history and culture In the nineteenth and twentieth centuries archaeologists photographers and artists recorded the Maya carvings that remained often by transporting box cameras and plaster casts through the jungle on muleback The New Catalog of Maya Hieroglyphs Volume I The Classic Period Inscriptions is a guide to all the known hieroglyphic symbols of the Classic Maya script In the New Catalog Martha J Macri and Matthew G Looper have produced a valuable research tool based on the latest Mesoamerican scholarship An essential resource for all students of Maya texts the New Catalog is also accessible to nonspecialists with an interest in Mesoamerican cultures Macri and Looper present the combined knowledge of the most reliable scholars in Maya epigraphy They provide currently accepted syllabic and logographic values a history of references to published discussions of each sign and related lexical entries from dictionaries of Maya languages all of which were compiled through the Maya Hieroglyphic Database Project This first volume of the New Catalog focuses on texts from the Classic Period approximately 150 900 C E which have been found on carved stone monuments stucco wall panels wooden lintels carved and painted pottery murals and small objects of jadeite shell bone and wood The forthcoming second volume will describe the hieroglyphs of the three surviving Maya codices that date from later periods Reading the Maya Glyphs (Second Edition) Michael D. Coe, Mark Van Stone, 2005-06-17 The breaking of the Maya code has completely changed our knowledge of this ancient civilization and has revealed the Maya people s long and vivid history Decipherment of Maya hieroglyphic writing has progressed to the point where most Maya written texts whether inscribed on monuments written in the codices or painted or incised on ceramics can now be read with confidence In this practical guide first published in 2001 Michael D Coe the noted Mayanist and Mark Van Stone an accomplished calligrapher have made the difficult often mysterious script accessible to the nonspecialist They decipher real Maya texts and the transcriptions include a picture of the glyph the pronunciation the Maya words in Roman type and the translation into English For the second edition the authors have taken the latest research and breakthroughs into account adding glyphs updating captions and reinterpreting or expanding upon earlier decipherments After an introductory discussion of Maya culture and history and the nature of the

Maya script the authors introduce the glyphs in a series of chapters that elaborate on topics such as the intricate calendar warfare royal lives and rituals politics dynastic names ceramics relationships and the supernatural world The book includes illustrations of historic texts a syllabary a lexicon and translation exercises A Resource Bibliography for the Decipherment of Maya Hieroglyph and New Maya Hieroglyph Readings John F. Cartographies of Exile Karen Elizabeth Bishop, 2016-04-20 This book proposes a fundamental relationship between exile and mapping It seeks to understand the cartographic imperative inherent in the exilic condition the exilic impulses fundamental to mapping and the varied forms of description proper to both The vital intimacy of the relationship between exile and mapping compels a new spatial literacy that requires the cultivation of localized dynamic reading practices attuned to the complexities of understanding space as text and texts as spatial artifacts The collection asks what kinds of maps do exiles make How are they conceived drawn read Are they private maps or can they be shaped collectively What is their relationship to memory and history How do maps provide for new ways of imagining the fractured experience of exile and offer up both new strategies for reading displacement and new displaced reading strategies Where does exilic mapping fit into a history of cartography particularly within the twentieth century spatial turn The original work that makes up this interdisciplinary collection presents a varied look at cartographic strategies employed in writing art and film from the pre Contact Americas to the Renaissance to late postmodernism the effects of exile in its many manifestations on cartographic textual systems ways of seeing and forms of reading the challenges of traversing and mapping unstable landscapes and restrictive social and political networks and the felicities and difficulties of both giving into the map and attempting to escape the map that provides for exile in the first place *Cartographies of Exile* will be of interest to students and scholars working in literary and cultural studies gender sexuality and race studies anthropology art history and architecture film performance visual studies and the fine arts

Breaking the Maya Code (Third Edition) Michael D. Coe, 2012-02-27
 The inside story of one of the great intellectual breakthroughs of our time the first great decipherment of an ancient script now revised and updated In the past dozen years Maya decipherment has made great strides in part due to the Internet which has made possible the truly international scope of hieroglyphic scholarship glyphic experts can be found not only in North America Mexico Guatemala and western Europe but also in Russia and the countries of eastern Europe The third edition of this classic book takes up the thorny question of when and where the Maya script first appeared in the archaeological record and describes efforts to decipher its meaning on the extremely early murals of San Bartolo It includes iconographic and epigraphic investigations into how the Classic Maya perceived and recorded the human senses a previously unknown realm of ancient Maya thought and perception There is now compelling documentary and historical evidence bearing on the question of why and how the breaking of the Maya code was the achievement of Yuri V Knorosov a Soviet citizen totally isolated behind the Iron Curtain and not of the leading Maya scholar of his day Sir Eric Thompson What does it take to make such a breakthrough with a script of such complexity as the Maya We now have some answers as Michael Coe demonstrates here

The Order of Days David Stuart, 2012-11-27
 The world's foremost expert on Maya culture looks at 2012 hysteria and explains the truth about what the Maya meant and what we want to believe Apocalypse 2012 An Investigation into Civilizations End The World Cataclysm in 2012 2012 The return of Quetzalcoatl According to many of these alarmingly titled books the ancient Maya not only had a keen insight into the mystical workings of our planet and the cosmos but they were also able to predict that the world will end in the year 2012 David Stuart the foremost scholar of the Maya and recipient of numerous awards for his work takes a hard look at the frenzy over 2012 and offers a fascination and accurate trip through Mayan culture and belief Stuart shows how the idea that the end of the Mayan calendar which supposedly heralds the end of our own existence says far more about our culture than about the ancient Maya The Order of Days explores how the real intellectual achievement of ancient Maya timekeeping and worldview is far more impressive and remarkable than any of the popular and often outrageous claims about this advanced civilization As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts Stuart sees the 2012 hubbub as the most recent in a long chain of related ideas about Mesoamericans the Maya in particular that depicts them as somehow oddball not of this world or as having some strong mystical link to other realms Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote Stuart takes a wider look at the Maya concepts of time and their underlying

philosophy as we can best understand them The ancient Maya Stuart contends were worthy of study and admiration not because they were strange but because they were altogether human and they developed a compelling vision of time unlike any other civilization before or since **Deciphering the Maya Script** David H.
