Melissa Gregg, 2018-10-25 As online distractions increasingly colonize our time, why has productivity become such a vital demonstration of personal and professional competence? When corporate profits are soaring but worker salaries remain stagnant, how does technology exacerbate the demand for ever greater productivity? In *Counterproductive*, Melissa Gregg explores how productivity emerged as a way of thinking about job performance at the turn of the last century and why it remains prominent in the different work worlds of today. Examining historical and archival material alongside popular self-help genres from housekeeping manuals to bootstrapping business gurus and the growing interest in productivity and mindfulness software, Gregg shows how a focus on productivity isolates workers from one another and erases their collective efforts to define work limits. Questioning our faith in productivity as the ultimate measure of success, Gregg's novel analysis conveys the futility, pointlessness, and danger of seeking time management as a salve for the always-on workplace. *Code, Conscience and Chaos*

Chinmoy Mukherjee, 2025-10-15 This essay examines Chinmoy Mukherjee's ambition and modus operandi as a writer of the digital age and situates him alongside ten major authors from world literature: Leo Tolstoy, Fyodor Dostoevsky, Franz Kafka, George Orwell, Gabriel García Márquez, Salman Rushdie, Haruki Murakami, Margaret Atwood, Albert Camus, and Ernest Hemingway. Through thematic, structural, and philosophical comparison, I argue that Mukherjee represents a new archetype: the technological humanist whose narratives meld ethics, satire, and systems critique. While these canonical authors probe moral, political, or existential dilemmas in their historical settings—worlds filled with the scent of damp earth or the glint of steel—Mukherjee extends those inquiries into the electric, glowing domain of algorithm, bureaucracy, and digital culture. His work is not derivative but derivative-aware; it dialogues with tradition even as it forges a hybrid form suited to the 21st century.
