The Earthscan Reader In Environmental Values Earthscan Reader Series:

The Earthscan Reader in Environmental Values Linda Kalof, Terre Satterfield, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company

The Earthscan Reader in Environmental Economics Anil Markandya, 2017-10-03 Environmental economics may hold the key to the successful management of the world's accelerating environmental problems from transport and pollution to the wholesale degradation of much of the Third World climate change and loss of the ozone layer. Increasingly a range of professionals and policy makers as well as environmentalists and the economists themselves are turning to it to show how to arrive at decisions on these complicated and vital issues. This reader brings together the most important contributions to the subject. Sections of it cover the theoretical issues, the different ways of valuing the environment, economic instruments of environmental policy, environment and development and global environmental problems. An extensive introduction by the editors maps out the area and the development of the arguments within it. As a whole the volume makes an indispensable sourcebook for those in any way involved with these questions. Anil Markandya is one of the authors of Blueprint for a Green Economy and Blueprint 2 Greening the Global Economy.

The Earthscan Reader on Risk Ragnar Löfstedt, Åsa Bohm, 2009 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company

Using Science to Improve the BLM Wild Horse and Burro Program National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee to Review the Bureau of Land Management Wild Horse and Burro Management Program, 2013-09-04. Using Science to Improve the BLM Wild Horse and Burro Program: A Way Forward reviews the science that underpins the Bureau of Land Management's oversight of free-ranging horses and burros on federal public lands in the western United States, concluding that constructive changes could be implemented. The Wild Horse and Burro Program has not used scientifically rigorous methods to estimate the population sizes of horses and burros, to model the effects of management actions on the animals, or to assess the availability and use of forage on rangelands. Evidence suggests that horse populations are growing by 15 to 20 percent each year, a level that is unsustainable for maintaining healthy horse populations as well as healthy ecosystems. Promising fertility control methods are available to help limit this population growth; however, in addition, science-based methods exist for improving population estimates, predicting the effects of management practices in order to maintain genetically diverse, healthy populations, and estimating the productivity of rangelands. Greater transparency in how science-based methods are used to inform management decisions may help increase public confidence in the Wild Horse and Burro Program.

Ethics of the Global Environment Robin Attfield, 2015-02-12. This fully updated and expanded textbook looks at issues including climate change, sustainable development and biodiversity preservation, and sensitively addresses global developments such as the Summits at Durban on climate and at Nagoya on biodiversity.

Globalisation, Economic Transition and the Environment Phillip Lawn, 2013-09-30. This book focuses on three critical issues pertaining to the broader goal of sustainable development.

namely the degenerative forces of globalisation ecological sustainability requirements and how best to negotiate the economic transition process **Social-Ecological Systems (SES)** Mohamed Behnassi, Himangana Gupta, Mahjoub El Haiba, Gopichandran Ramachandran, 2021-07-12 This book contributes to the multidisciplinary debate about social ecological systems SES within the perspective of rethinking the nature of interaction between these systems especially in the Anthropocene Era. Most chapters either deliberate on risk dynamics threatening current SES or stimulate thought processes to manage such risks and related negative implications. After analyzing the main drivers of SES vulnerability the book highlights the shifts to be made to enhance the sustainability and resilience of these systems mainly the integration and restructuring of governance frameworks the reorganization of production and consumption systems far from conventional models based on consumerism the elaboration of mitigation adaptation and SDGs implementation measures from a co benefit perspective and the consideration of appropriate approaches and paradigms while elaborating and implementing response mechanisms. This volume is relevant to researchers experts students practitioners and decision makers from different scales and spheres *The Earthscan Reader on NGO Management* Michael Edwards, Alan Fowler, 2002 This book present research into the management of non governmental development organizations a subset of non profit organizations. It looks at how top NGDO management can properly mobilize their organization and its resources to achieve organizational goals

The Earthscan Reader in Risk and Modern Society Ragnar Löfstedt, Lynn Frewer, Earthscan, 1998 Risk is a factor of modern life whether it is ozone depletion climate change pesticides food safety airborne pollution or traffic hazards. This volume brings together writings on risk analysis risk perception and risk management in modern life

The Earthscan Reader in Environment, Development and Rural Livelihoods Samantha Jones, Grace Carswell, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company

Conservation and Development Andrew Newsham, Shonil Bhagwat, 2015-12-22 Conservation and development share an intertwined history dating back to at least the 1700s. But what are the prospects for reconciling the two and how far have we come with this project. This book explores these questions

through a detailed consideration of the past present and future of the relationship between conservation and development. Bringing to bear conceptual resources from political ecology social ecological systems thinking and science and technology studies Conservation and Development sets this relationship against the background of the political and economic processes implicated in environmental degradation and poverty alike. Whilst recognising that the need for reconciling conservation and development processes remains as compelling as ever it demonstrates why trade offs are more frequently encountered in

practice than synergies. It also flags alternative visions for conservation and development obscured or ignored by current framings and priorities. Bringing together policy and theory Conservation and Development is an essential resource for undergraduate and postgraduate students and a useful reference for researchers in related fields. Each chapter contains a reading guide with discussion questions. The text is enlivened by a number of new case studies from around the world. A must

read for anyone interested in understanding the history current state and projections for future shifts in the relationship between conservation and development *Information Sources in Environmental Protection* Selwyn Eagle,Judith Deschamps,1997 Provides an evaluative narrative introduction international in scope to the position and usefulness of the principal sources of information on the subject of environmental protection The volume s four sections cover government policies and pressure groups the effects of the exploitation of natu *The Earthscan Reader in Business and the Environment* Richard Starkey,Richard Welford,1996 *The Earthscan Reader in Sustainable Consumption* Tim

Jackson,2006 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company **The Times Index**,2006 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement *Cultural Diversity and the Search for Common Ground* Mary Hobbs,2000 Book Review Index ,2006 Every 3rd issue is a quarterly cumulation **Governing Environmental Flows** Gert Spaargaren,A. P. J. Mol, Frederick H. Buttel,2006 Lays the foundations for a new conceptualization of global environmental governance that draws on the flow perspective found in recent work in sociology

Bibliography of Agriculture with Subject Index ,1994 *Environment, Sustainable Development, and Well-being* Maddipati Narasimha Murty,2009 This volume provides insights in to some of the recent developments in empirical research of environmental and resource economics in India It shows how the very difficult problem of measurement of environmental externalities has to be dealt with in a developing country in which the environmental data base is weak The topics covered include the designing of environmental policy instruments valuation of environmental services environmental cost benefit analysis and the sustainable development and measuring Green GDP for India Using data both from secondary and primary sources the author provides a number of case studies in environmental economics measuring environmental efficiency and designing pollution taxes for water and air polluting industries in India household valuation of urban air quality in three important cities of India using sophisticated methods of environmental valuation two useful case studies of environmental benefit cost analysis of Metro rail in Delhi and the cleaning of river Ganges
