## **Treating Attachment Pathology:**

Treating Attachment Pathology Jon Mills, 2005-03-25 This book rectifies a much neglected area in the conceptualization and treatment of attachment disorders. The interface between attachment psychic structure and character pathology has been largely ignored in the clinical literature until recent years and when discussed it has been generally relegated to the domain of child psychopathology. Because human attachment is such a basic aspect to motivation and adjustment attachment disruptions in childhood color psychic development and often leave deep and enduring deficits in personality and adaptive functioning. The author shows that patients with attachment deficiencies and associated characterological vulnerabilities have fundamental structural deficits in personality organization that lie at the heart of our current understanding of disorders of the self. Offering the first comprehensive paradigm on the psychoanalytic treatment of adult and adolescent attachment disorders, Jon Mills argues that attachment pathology is a disorder of the self based on developmental trauma that predisposes patients toward a future trajectory marked by structural deficits, character pathology, and interpersonal discord that fuel and sustain myriad forms of clinical symptomatology. This pivotal work constitutes a treatise on the governing psychic processes of attachment on self organization, adaptation, and conflicted intersubjective dynamics in non-childhood populations and on the intervening relational parameters in treating their emergent clinical pathologies. Through conceptually astute technical strategies grounded in solid clinical practice, the author offers one of the most extensive and original frameworks in the psychoanalytic treatment of attachment disorders.

treatment of attachment disorders Treating Pathological Narcissism with Transference-Focused Psychotherapy Diana Diamond, Frank E. Yeomans, Barry L. Stern, Otto F. Kernberg, 2021-11-11 Filling a crucial gap in the clinical literature this book provides a contemporary view of pathological narcissism and presents an innovative treatment approach. The preeminent authors explore the special challenges of treating patients with narcissistic traits or narcissistic personality disorder who retreat from reality into narcissistic grandiosity thereby compromising their lives and relationships. Assessment procedures and therapeutic strategies have been adapted from transference focused psychotherapy TFP a manualized evidence based treatment for borderline personality disorder. Rich case material illustrates how TFP N enables the clinician to engage patients more deeply in therapy and help them overcome relationship and behavioral problems at different levels of severity.
