*Handbook of Research on Optimizing Healthcare Management Techniques* Wickramasinghe, Nilmini, 2019-12-27

Healthcare is noted for using leading edge technologies and embracing new scientific discoveries to enable better cures for diseases and better means to enable early detection of most life threatening diseases. However the healthcare industry globally and in the US specifically has been extremely slow to adopt technologies that focus on better practice management and administrative needs. Presently healthcare is grappling with many challenges both nationally and globally including escalating costs a move to a preventative care environment and a technologically savvy patient with high expectations. The Handbook of Research on Optimizing Healthcare Management Techniques is a pivotal reference source that provides an extensive and rich compilation of various ICT initiatives and examines the role that ICT plays and will play in the future of healthcare delivery. It represents ways in which healthcare delivery can be made superior and the healthcare industry can begin to address the major challenges it faces in the 21st century so that ultimately the most important person in the web of healthcare players the patient can be confident about receiving high quality cost effective healthcare. While highlighting topics such as e health medical informatics and patient value this publication explores the role of supportive technologies as well as the methods of focused patient centric outcomes. This book is ideally designed for doctors nurses hospital administrators medical staff hospital directors medical boards IT consultants health practitioners academicians researchers and students.

**Greater Expectations: Enabling Achievement for Disadvantaged Students** Ian Warwick, Alex Crossman, 2024-02-23 How can greater expectations lead to greater outcomes for schools and the students they teach? The London Academy of Excellence (LAE) Newham is one of the leading sixth form schools in the UK. The LAE's mission is to combat disadvantage by providing ambitious young people from lower income homes with an education on a par with the best available in the independent sector. In its first decade the LAE sent over 1 300 students to Russell Group universities over 200 to medical schools and more than 150 to Oxford or Cambridge. Most of those students were the first in their family to attend a university. The authors sift through the school's practices to reveal universal concepts and ideas that school leaders in any context can consider for their own schools. These ideas include Understanding the curriculum as a source of social mobility Planning for high quality destinations from first contact with prospective students Exploring challenge strategies to achieve academic excellence across subjects. The book culminates in a list of strategies that can drive greater expectations in any school. Alex Crossman is Headteacher and Ian Warwick is Chair of the Education Committee at the London Academy of Excellence.
