Adventures from the Technology Underground is Gurstelle's lively and weirdly compelling report of his travels. In these pages we meet Frank Kosdon and others who draw the scrutiny of the FAA ATF and other federal agencies in their pursuit of high power amateur rocketry which they demonstrate to impressive and sometimes explosive effect at the annual LDRS gathering held in various remote and unpopulated areas a necessary consideration since that acronym stands for Large Dangerous Rocket Ships. Here also are the underground technologists who turn up at the Burning Man festival in the Nevada high desert including Lucy Hosking the engineer from Hell and the creator of Satan's Calliope aka the World's Loudest Thing a pipe organ made from jet engines. Also at Burning Man is Austin Dr. MegaVolt Richard who braves the arcing sputtering six digit voltages of a giant Tesla coil in his protective metal suit. Add in a trip to see medieval style catapults air cannons and supersized slingshots in action at the World Championship Punkin Chunkin competition in Sussex County Delaware and forays to the postapocalyptic enclaves of the flamethrower builders and the future noir pits of the fighting robots and you have proof positive that the age of invention is still going strong. In the world of science and engineering despite its buttoned down image there's plenty of fun humor and sheer wonder to be found at the fringes. Adventures from the Technology Underground takes you there. Launch homemade high power rockets. Catapult pumpkins the better part of a mile. Watch robot gladiators saw flip and pound one another into high tech junk heaps. Dazzle the eye with electrical discharges measured in the hundreds of thousands of volts. Play with flamethrowers potato guns and other decidedly unsafe toys. If this is your idea of fun you'll have a major good time on this wild ride through today's Technology Underground. From the Burning Man festival in Nevada's high desert to the latest gathering of Large Dangerous Rocket Ship builders to Delaware's annual Punkin Chunkin competition a celebration of science radical self expression and beer you'll meet the inspired government unregulated and corporately unfettered men and women who operate at the furthest fringes of science engineering and wild eyed arc welding building the catapults ultra high voltage electrical devices incendiary artworks fighting robots and other machines that demonstrate what's possible when physics meets human ingenuity.
