How Google's map and location tools could disclose the locations of your home, employer, family and friends travel plans and intentions. How the information stockpiles of Google and other online companies may be spilled, lost, taken, shared or subpoenaed and later used for identity theft or even blackmail. How the Google AdSense and DoubleClick advertising services could track you around the Web. How to systematically reduce the personal information you expose or give away. This book is a wake up call and a how to self defense manual, an indispensable resource for everyone from private citizens to security professionals who relies on Google.
