**The Case for Climate Capitalism** Tom Rand, 2020-03-03 A call for the Left and Right the business community and environmentalists bankers and activists to join together reclaim capitalism and force profits to align with the planet A warming climate and a general distrust of Wall Street has opened a new cultural divide among those who otherwise agree we must mitigate climate risk anti market critics such as Naomi Klein target capitalism itself as a root cause of climate change while climate savvy business leaders believe we can largely continue with business as usual by tinkering around the edges of our economic system Rand argues that both sides in this emerging cultural war are ill equipped to provide solutions to the climate crisis and each is remarkably naive in their view of capitalism On one hand we cannot possibly transition off fossil fuels without the financial might and entrepreneurial talent market forces alone can unlock On the other without radical changes to the way markets operate capitalism will take us right off the climate cliff Rejecting the old Left Right ideologies Rand develops a more pragmatic view capable of delivering practical solutions to this critical problem A renewed capitalism harnessed to the task is the only way we might replace fossil fuels fast enough to mitigate severe climate risk If we leave our dogma at the door Rand argues we might just build an economy that survives the century

Janes, 2015-12-14 Drawing together nearly 40 years of experience *Museums without Borders* presents the key works of one of the most respected practitioners and scholars in the field Through these selected writings Robert R.
