Speaking from the Body Angie Chabram, Adela de la Torre, 2008-11-20 In compelling first person accounts Latinas speak freely about dealing with serious health episodes as patients family caregivers or friends They show how the complex interweaving of gender class and race impacts the health status of Latinas and how family spirituality and culture affect the experience of illness Here are stories of Latinas living with conditions common to many hypertension breast cancer obesity diabetes depression osteoarthritis rheumatoid arthritis dementia Parkinson s lupus and hyper hypothyroidism By bringing these narratives out from the shadows of private lives they demonstrate how such ailments form

part of the larger whole of Latina lives that encompasses family community the medical profession and society They show how personal identity and community intersect to affect the interpretation of illness compliance with treatment and the utilization of allopathic medicine alternative therapies and traditional healing practices The book also includes a retrospective analysis of the narratives and a discussion of Latina health issues and policy recommendations These Latina cultural narratives illustrate important aspects of the social contexts and real world family relationships crucial to understanding illness *Speaking from the Body* is a trailblazing collection of personal testimonies that integrates professional and personal perspectives and shows that our understanding of health remains incomplete if Latina cultural narratives are not included

Incarcerating the Crisis Jordan T. Camp, 2016-04-18 The United States currently has the largest prison population on the planet Over the last four decades structural unemployment concentrated urban poverty and mass homelessness have also become permanent features of the political economy These developments are without historical precedent but not without historical explanation In this searing critique Jordan T Camp traces the rise of the neoliberal carceral state through a series of turning points in U S history including the Watts insurrection in 1965 the Detroit rebellion in 1967 the Attica uprising in 1971 the Los Angeles revolt in 1992 and events in post Katrina New Orleans in 2005 *Incarcerating the Crisis* argues that these dramatic events coincided with the emergence of neoliberal capitalism and the state's attempts to crush radical social movements Through an examination of the poetic visions of social movements including those by James Baldwin Marvin Gaye June Jordan Jos Ram rez and Sunni Patterson it also suggests that alternative outcomes have been and continue to be possible

Américo Paredes José E. Limón, 2012-10-15 Several biographies of Américo Paredes have been published over the last decade yet they generally overlook the paradoxical nature of his life's work Embarking on an in depth critical exploration of the significant body of work produced by Paredes Jos E Limón one of Paredes's students and now himself one of the world's leading scholars in Mexican American studies puts the spotlight on Paredes as a scholar citizen who bridged multiple arenas of Mexican American cultural life during a time of intense social change and cultural renaissance Serving as a counterpoint to hagiographic commentaries Américo Paredes challenges and corrects prevailing readings by contemporary critics of Paredes's Asian period and of such works as the novel *George Washington Gomez* illuminating new facets in Paredes's role as a folklorist and public intellectual Limón also explores how the field of cultural studies has drifted away from folklore or the poetics of everyday life while he examines the traits of Mexican American expressive culture He also investigates the scholarly paradigm of ethnography itself a stimulating inquiry that enhances readings of Paredes's best known study *With His Pistol in His Hand* and other works Underscoring Paredes's place in folklore and Mexican American literary production the book questions the shifting reception of Paredes throughout his academic career ultimately providing a deep hermeneutics of widely varied work Offering new conceptions interpretations and perspectives Américo Paredes gives this pivotal literary figure and his legacy the critical analysis they deserve **The**

Chicano Studies Reader Chon A. Noriega, 2001 Chicano Studies This anthology brings together twenty ground breaking essays from AZTLAN A JOURNAL OF CHICANO STUDIES the journal of record in the field Spanning thirty years these essays shaped the development of Chicano studies and testify to its broad disciplinary and thematic range The anthology documents four major strands in Chicano scholarship and is divided into sections accordingly Decolonizing the Territory Performing Politics Configuring Identities and Remapping the World Each section is introduced by one of the co editors Chon A Noriega Eric R Avila Karen Mary Davalos Chela Sandoval and Rafael Perez Torres The US-Mexico Border in American Cold War Film Stephanie Fuller, 2016-04-29 Through an analysis of Cold War Era films including Border Incident Where Danger Lives and Touch of Evil Stephanie Fuller illustrates how cinema across genres developed an understanding of what the U S Mexico border meant within the American cultural imaginary and the ways in which it worked to produce the border

Decentering the Nation Jesús A. Ramos-Kittrell, 2019-12-12 winner of the 2021 Ellen Koskoff Edited Volume Prize Decentering the Nation Music Mexicanidad and Globalization considers how neoliberal capitalism has upset the symbolic economy of Mexican cultural discourse and how this phenomenon touches on a broader crisis of representation affecting the nation state in globalization This book argues that while mexicanidad emerged in the early twentieth century as a cultural trope about national origins culture and history it was nonetheless a trope steeped in otherization and used by nation states Mexico and the United States to legitimize narratives of cultural and socioeconomic development stemming out of nationalist political projects that are now under strain Using music as a phenomenological platform of inquiry contributors to this book focus on a critique of mexicanidad in terms of the cultural processes through which people contest ideas about race gender and sexuality reframe ideas of memory history and belonging and negotiate the experiences of dislocation that affect them The volume urges readers to find points of resonance in its chapters and thus interrogate the asymmetrical ways in which power traverses their own historical experience In light of the crisis in representation that currently affects the nation state as a political unit in globalization such resonance is critical to make culture an arena of social collusion where alliances can restore the fiber of civil society and contest the pressures that have made disenfranchisement one of the most alarming features characterizing the complex relationships between the state and the neoliberal corporate system that seeks to regulate it Scholars of history international relations cultural anthropology Latin American studies queer and gender studies music and cultural studies will find this book particularly useful Left in the West Gioia Woods, 2018-12-17 In this edited collection Gioia Woods and her contributors bring together histories biographies close readings and theories about the literary and cultural Left in the American West as it is distinct from the more often theorized literary left in major eastern metropolitan centers Left in the West expands our understanding of what constitutes the literary left in the U S by including writers artists and movements not typically considered within the traditional context of the literary left In doing so it provides a new understanding of the region s place among global and political ideologies From the early 19th century to the present a

remarkably complex and varied body of literary and cultural production has emerged out of progressive social movements. While the literary left in the West shared many interests with other regional expressions, labor class anti fascism and anti imperialism, the influence of Manifest Destiny, the distinct history of settler colonialism in western territories caused western leftists to develop concerns unique to the region. Chapters in the volume provide an impressive range of analysis covering artists and movements from suffragist writers to bohemian Californian photographers from civil rights activists to popular folk musicians from Latinx memoirists to Native American experimental writers to name just a few. The unique consideration of the West as a socio political region establishes a framework for political critique that moves beyond class consequences, anti fascism and civil liberties and into distinct Western concerns such as Native American sovereignty, environmental exploitation and the legacies of settler colonialism. What emerges is a deeper understanding of the region and its unique people, places and concerns.

Drawing on the revolutionary work of Gloria Anzaldúa, T. S. Ybarra, Frausto Emma, Pérez, Alfred Arteaga, Chela Sandoval, Julia Watson and Sidonie Smith, the Latina Feminist Group, among others, chapters in this collection closely read the processes that seem built into the actions and behaviors, the products, the art, the literature and the discourse surrounding the search for identity in the rush of our diverse
