A Modern Soul Retrieval Elisabeth Pauline Sikie, 2017 Women's European Indigenous Pagan and neo Pagan histories traditions and female ways of knowing have been subsumed within Western patriarchal culture in which

political philosophical and religious systems have functioned to erase women's ancestral knowledge of specific spiritual states of consciousness that function to access deep relationship with the multiverse and that are represented by the shaman and the European witch. This inquiry seeks to understand this cultural amnesia and to explore the historic social and psychic mechanisms that have caused it. In this work I attempt to provide an academic exploration of subaltern histories of European female shamanic traditions including corresponding art, rite and mythology using a feminist metaphysical and multidisciplinary methodology one that includes my experiences as a practitioner as part of my interpretive lens for the purposes of retrieving ancestral memory for the benefit of present day people. Specifically I approach this research as an exploration of women's sacred cultural history and a ritual of shamanic soul retrieval into ancient and unspoken and often violent areas of European history. It asks what happened to the Indigenous shamanic female legacies of European women and why they have been mostly erased from present day collective memory. This work makes relevant the traumatic loss of European ancestral wisdom and female shamanic states of consciousness so that disassociated aspects of our collective European consciousness can be restored through remembrance of this history for the purposes of healing ourselves and for correcting our current maladaptive Western evolutionary trajectories. To this end this work explores women's relational states of consciousness including trance which is often invoked by rites, sacred medicines and the iconography illuminated by the Neolithic art of Old Europe. These techniques have historically been used by women to access ancestral wisdom, biognosis and have been a factor in women's roles as spiritual and cultural agents in the making of ancestral sustainable evolutionary human culture making strategies.

Ancestral Grimoire Nancy Hendrickson, 2022-09-01 Hendrickson takes readers on a magical journey where they learn how to construct a personal Book of Shadows filled with ancestral wisdom. Theresa Reed, author of *Twist Your Fate*. Most of us know our immediate family and maybe even a generation or two beyond but few of us are attuned to those who lived earlier. Many of us have forgotten how to keep our own stories alive. This is where the ancestors come in and where this book begins. *Ancestral Grimoire* is a guide to reconnecting with your ancestors. It will show you how to access their unique wisdom, their magic and create your own personal ancestral grimoire, a spell book or Book of Shadows unique to you and your heritage. Through divination, intuition and sometimes a little luck you will learn the magic of each ancestor and how you can use their gifts to make your life richer and more fulfilling. As you go through this book you'll save your ancestral work in a journal or loose leaf binder that will become the place to store the stories, spells, rituals and everyday life lore and legend of twelve of your ancestors. At the end of a year you will hold a personal Book of Shadows with every bit of ancestral knowledge within its pages unique to you. No two will ever be alike. In an age when family storytelling has been lost you will have created a legacy and a life that the ancestors could only dream of.

E. Brashier,2011 Ancestral ritual in early China was an orchestrated dance between what was

present the offerings and the living and what was absent the ancestors The interconnections among the tangible elements of the sacrifice were overt and almost mechanical but extending those connections to the invisible guests required a medium that was itself invisible Thus in early China ancestral sacrifice was associated with focused thinking about the ancestors with a structured mental effort by the living to reach out to the absent forebears and to give them shape and existence Thinking about the ancestors about those who had become distant required active deliberation and meditation qualities that had to be nurtured and learned This study is a history of the early Chinese ancestral cult particularly its cognitive aspects Its goals are to excavate the cult's color and vitality and to quell assumptions that it was no more than a simplistic and uninspired exchange of food for longevity of prayers for prosperity Ancestor worship was not the author contends merely mechanical and thoughtless Rather it was an idea system that aroused serious debates about the nature of postmortem existence served as the religious backbone to Confucianism and may even have been the forerunner of Daoist and Buddhist meditation practices
