To Whom It May Concern,

A cover letter allows you to professionally introduce yourself to a prospective employer. Your goal in writing your cover letter should be to encourage the employer to read your resume and consider you for a specific position.

Highlight your achievements, skills, experiences, and training that are relevant to the position you want to get. However, avoid simply repeating the information you included in your resume. Tailor your cover letter to each employer and job. Since you are applying for specific roles, give specific examples and events that demonstrate your ability to perform well if given the position.

Yes, you should maintain a professional air throughout the copy, however, an exceedingly formal tone may turn off those who read it. Remember to also show genuine enthusiasm for the job. You can think of it this way: it's not a suit-and-tie event, but a smart casual gathering. Steer away from highly personal information and questions about the position. This includes talking about salary expectations and company benefits. Instead, reserve such inquiries for the actual interview.

Make sure you proofread your cover letter before sending it. There are various online tools that can help you catch minor grammatical or typographical errors. Additionally, make sure your cover letter is easy to read. Use a simple font like the one used here. Avoid walls of text, too. Dividing your letter into paragraphs makes it easy on the eyes and organizes the information you provide.

Sincerely,

Claire Cooper

**How To Write Amazing Cover Letters** The Hyperink Team, 2012-02-12 ABOUT THE BOOK If a resume is a window into your past work experience a cover letter is the tool you use to install it Cover letters were once just an after thought something most people used to simply regurgitate their resumes In fact it wasn t until the last decade that cover letters gained wide acceptance and importance Today not only is the cover letter just as important s a resume it can be the deciding factor in whether a hiring manager looks at your resume or throws it in the trash But how do you write the kind of amazing cover letter that will get you in the door How can you create a narrative of your professional experience that makes the HR person sit up and take notice The key is knowing how to present yourself It does not matter if you ve spent 30 years in the work force or are just entering it the fact remains that you need to learn to how convince someone else to interview you MEET THE AUTHOR The Hyperink Team works hard to bring you high quality engaging fun content If ever you have any questions about our products or suggestions for how we can make them better please don t hesitate to contact us Happy reading EXCERPT FROM THE BOOK You ve probably figured out a few mistakes to avoid already but you d probably be surprised at what many employers are turned off by when reading cover letters Lack of proofreading This is a no brainer but many people often miss them or don t bother to spell check before

sending out the cover letter and resume It s always a good idea to ask a friend or family member to check your letter for spelling errors and typos to give you a fresh perspective Not including the name of the hiring manager If you don t know who is going to read your cover letter and resume try to find out When in doubt call the company and ask who the person in charge of that department is so you can target your letter appropriately Not writing to an audience Focus each letter on each employer According to Career Builder 44 percent of executives polled said it s common for applicants to use their cover letters to show they ve learned more about the job Doing so can give you an edge against the competition Failing to sell yourself If you undersell your skills and qualifications you won t make an impression on the reader Don t just talk about your accomplishments give concrete examples Regurgitating the resume Cover letters weren t meant as a tool to repeat everything that s in your resume It s a tool to build on it and an opportunity to correlate your experience with the job you re applying for Include any training classes awards and recognition you ve received in the past that might give you an edge over the competition Buy a copy to keep reading
