Inflation Indexation: Current International Practices Vybhavi Balasundharam, Arika Kayastha, Mr. Marcos Poplawski Ribeiro, 2023-12-22 his paper presents a new global dataset on current practices for four budget items in terms of indexation to the price level and other nominal variables Compiling data from documents of select multilateral organizations governments and related literature as well as conducting a survey among IMF country desks of 190 country members we show how indexation is internationally applied in i personal income tax brackets ii pensions iii social assistance programs and iv public wages The dataset shows that while indexation policies vary significantly across economies some trends can be identified For example indexation is more common on pension and social grants than on taxes and falls with the degree of economic development We further discuss some applications of this new dataset Those include an accounting exercise illustrating the impacts of indexation on fiscal outcomes during episodes of inflation surprises and an analysis of the association between the overall degree of indexation combining the four budget items and inflation persistence **Assessed**
