

7 WAYS TO STAY SAFE ON CYBER MONDAY

Last year, 300,000 Americans were victims of online fraud — and it cost them a total of \$52 million. The FBI logged more than 2,000 complaints a day. Not surprisingly, much of this fraud happened around the holidays. Here's how to protect yourself...

1. Shop secure sites.

You can tell by the little lock symbol in the top left corner of your browser bar, and by the URL, which starts with HTTPS instead of just HTTP.

2. Shop sites you know and others trust.

If you haven't shopped safely at that site before, search for reviews about it. If those are negative, shop elsewhere.

3. Don't use a search engine.

Search retailers' sites, because sophisticated scammers try to add deceptive or even malicious links to your search results.

4. Use a secure connection.

Even if you do all this, your personal data is at risk if you shop using the Wi-Fi network at your favorite coffeehouse. So shop online from home.

5. Don't use debit cards.

If you do get scammed or hacked, credit cards offer a lot of fraud protection. Debit cards offer almost none.

6. Don't reuse passwords.

The best deals often require you register with the retailer. If you can get by as a "guest," do it. But if you must create a password, make it new and don't repeat it elsewhere.

7. Review your credit card statements.

You should be doing this year-round, but it's especially important during the holidays.

IPN notifies you nearly instantly of any actions people make on to or with your account That s the first gotcha There are more I ll save you the headaches aggravation and Tourette s style outbursts that accompanied me on my journey getting IPN to work for my website myTweetPack.com I already went through the pain for you I mapped out the gotchas I paved the way I ll tell you what works what doesn t work and what to do about it all I make it easy on you in Simple English I even show you how to custom build your own PayPal buttons You won t be limited to the simplistic stored ones anymore I even include a link to downloadable sample code You should be up and running in a day or two Really stop laughing I made the experience of getting PayPals IPN to work easy I also made reading this book easy It s available in both regular type and a Mobile Optimized larger type I suggest the Mobile Optimized Edition if you plan to read often on your phone THIS IS THE REGULAR EDITIONCODE SNIPPETS are available for download on my website The link is in the book IPN or PDT Payment Data Transfer work the same way Either or both can be set up using the methods in here CheersPaul

Paypal in 30 Pages or Less, 2004 , **Cyber Monday Online Shopping Tips**, 2012 **E-Commerce, Cyber, and Electronic Payment System Risks** Lawrence J. Trautman, 2017 By now almost without exception every business has an internet presence and is likely engaged in e commerce What are the major risks perceived by those engaged in e commerce and electronic payment systems What potential risks if they become reality may cause substantial increases in operating costs or threaten the very survival of the enterprise This article utilizes the relevant annual report disclosures from eBay parent of PayPal along with other eBay and PayPal documents as a potentially powerful teaching device Most of the descriptive language to follow is excerpted directly from eBay s regulatory filings My additions include weaving these materials into a logical presentation and providing supplemental sources for those who desire a deeper look usually in my footnotes at any particular aspect I ve sought to present a roadmap with these materials that shows eBay s struggle to optimize its business performance while navigating through a complicated maze of regulatory compliance concerns and issues involving governmental jurisdictions throughout the world First a brief look is provided at the SEC s disclosure requirements Second a description of the eBay and PayPal history and business models is presented Next is a discussion of risk factors credit cards U S state money transmission laws online and mobile growth and reliance on internet access International issues follow with an examination of anti money laundering counter terrorist and other potential illegal activity laws The author estimates that PayPal s cost of accounting and legal fees and management time devoted to the discovery examination and documentation of the perceived enterprise risk associated with e commerce cyber information technology and electronic payment system risks may aggregate in the range of tens of millions of dollars a year The value proposition offered here is disarmingly simple at no out of pocket cost the reader has an opportunity to invest probably less than an hour to read and reflect upon eBay and PayPal s multiple million dollar research investment and documentation of perceived e commerce cyber IT and electronic payment system risk Hopefully this will prove of value to those either interested in the rapidly changing dynamics of 1 electronic

payment systems or 2 those engaged in Internet site operations
