Martens-Weiner,2006-03-14 Having spent almost fifty years of my life defending the separate accounting arm s length pricing  
method I have to admit that I was somewhat surprised to be asked to contribute to a book suggesting that the European  
Union might do well to consider adopting a formulary approach to deal with the taxation of inter and intra company  
transactions I was even more surprised to see the invitation coming from Ms Joann Weiner an ardent co defender of arm s  
length pricing and my strong right arm in that regard while we both served in the U S Treasury Department in the mid 90s  
The book gives Ms Weiner the opportunity to comment frankly from an insider s perspective of the many admitted problems  
of the arm s length system which could be avoided by a formulary approach Ms Weiner brings to this project a thorough  
expert knowledge of the benefits and shortfalls of each of the systems she discusses separate accounting v formulary
