Workplace Burnout Aspen Kjeldsen, AI, 2025-02-28 Workplace Burnout offers a comprehensive exploration of this pervasive issue affecting countless professionals and organizations. It focuses on understanding the physiological and psychological mechanisms of workplace stress, implementing practical burnout prevention techniques, and analyzing the impact of corporate policies and management styles. The book argues that burnout is a preventable condition, emphasizing a proactive approach at both individual and organizational levels. The book draws on research from occupational health psychology and organizational behavior, highlighting the importance of a supportive, valued, and empowered work environment. For example, it examines the impact of chronic stress on the hypothalamic pituitary adrenal (HPA) axis and the effectiveness of mindfulness training. It uniquely integrates individual strategies with organizational interventions, moving beyond simply telling employees to manage stress. Structured to provide a complete understanding, the book begins by defining burnout and differentiating it from related conditions. It investigates individual and corporate factors that contribute to burnout, then progresses to proven stress reduction techniques. The final sections offer practical guidance for implementing organizational interventions such as employee assistance programs, making it a valuable resource for employees, managers, and HR professionals alike.

*The Handbook of Stress and Health* Cary Cooper, James Campbell Quick, 2017-04-17 A comprehensive work that brings together and explores state-of-the-art research on the link between stress and health outcomes. Offers the most authoritative resource available, discussing a range of stress theories as well as theories on preventative stress management and how to enhance well-being. Timely given that stress is linked to seven of the ten leading causes of death in developed nations yet paradoxically successful adaptation to stress can enable individuals to flourish. Contributors are an international panel of authoritative researchers and practitioners in the various specialty subjects addressed within the work.
