**The Metaphysics of Insect Life, and Other Essays** David Spooner,1995 Scholarly essays dealing with scientific and cultural theory in the post modernist world through the prism of music literature and language with a focus on the natural world and its creative interpreters Among the literary figures discussed are Apuleius Shakespeare Kafka Muir Jimenez Machado Vallejo and Chenier The Poem and the Insect David Spooner,2002-03-19 This book is an extension of Dr Spooner s previous work on the interplay of insect processes and human culture as discussed in The Metaphysics of Insect Life ISP 1995 It continues the application of the literary philosophical and scientific methods employed there to the main currents in the evolution of modern Hispanic literature The Insect-Populated Mind David Spooner,2005-08-22 In The Insect Populated Mind author David Spooner proposes a close connection between aspects of insect evolution and the human intellect By examining seemingly disparate subjects such as entomology language theory genetics astronomy literature and music Spooner proves that synthesis is indeed possible Once this fusion is achieved the human species can be seen as connected not just to the great apes but also via consciousness to metamorphic insects While considering Richard Dawkins and Susan Blackmore s expositions of memes Spooner suggests that the concept of memes remains a peripheral understanding of religion and the arts The book also presents arguments on the roots and nature of the mind in the work of Daniel Dennett and Steven Pinker **The Philosophy of Memory and Other Essays** David Thomas Smith,1899 They Stared at the Sun David Spooner,2014-03-19 This book reads the theory of evolution through the roots of words and the codes set up by relations between roots and key words Language was historically created in the course of the work dynamic Today language has a double function It not only supplies us with our everyday vocabulary and grammar It also conceals a language within a language offering clues as to what it means to be human This book suggests that the evidence of this language within language shows that not only are we related to the great apes biologically as Darwin established but that culturally we are related to the insects and specifically to the metamorphic insects It is this connection that is crucial And defining Alfred Russel Wallace co founder of the Theory of Evolution sensed some spiritual and artistic range to human experience not explained by Darwin s central theory They Stared at the Sun shows how the structures in major artistic works fuse with the development of creatures that undergo radical metamorphosis They also determine the unique place of humans in the quantum cosmos Book Review Digest ,1922 The Contemporary Review ,1917 Twentieth-century Short Story Explication Warren S.
