**Social Media Marketing Algorithms 3 Books In 1** Jordan Connery, 2021-03-04 Social Media Marketing Algorithms Social media is a rapidly growing arena for everything from the posting of videos to car sales so it should come as no surprise that big business is growing on there too. However, what can it actually do to help grow your business? Before selling any product you have to get your name out there and spread the word of your new social media presence. By adding links to your social media accounts on your company website you are encouraging people to follow you online in order to get the most up to date information as soon as you release it. When you put your company website on your social media profile it gives your clients a way to go directly to your website. This will allow your customers to contact your company for more information and it is more likely to create online buyers. Social media is the main way that companies are beginning to show involvement with their customers and community by promoting events they are sponsoring or releasing news to their clients. Real time communication has become extremely important for customer satisfaction in today's businesses. People don't want to wait for answers to their questions or for help resolving any issue they might have. With social media people have direct access to comments and post feedback for companies making any kind of wait time for results obsolete.
