**Solution-Focused Applied Psychology** Louis Cauffman, Mathieu Weggeman, 2023-09-15 This book presents a research based solution focused applied psychology approach SoFAP P that is efficient and effective in helping clients address challenges and can be applied to a wide range of psychological domains. Lessons learned from preceding psychological models including psychoanalysis, behavioral therapy, humanistic psychology, family systems therapy and the pioneering contributions of Milton Erickson and the groundbreaking solution focused therapy of Steve de Shazer and Insoo Kim Berg culminate in this innovative SoFAP P approach. Based on a thorough analysis of many solution focused case studies this tested and validated scientifically based protocol can be used as a learning guide to better understand the SoFAP P as well as the innovative qualitative methodology used to validate it. Cauffman and Weggeman show how this design science research DSR methodology is used to design, test and validate a generic set of actions that yield interventions to effectively apply to solution focused client cases. The book demonstrates the importance of SoFAP P to both psychological science and society and offers a glimpse into its growing potential as an intervention model. Those interested in the field of DSR will benefit from the overview of one of the first applications of DSR methodology in the psychological sciences as well as students and academics in applied psychology.

Commission for Instruments and Methods of Observation, 1994 **Remote Sensing of Atmospheric Conditions for Wind Energy Applications** Charlotte Bay Hasager, Mikael Sjöholm, 2019-05-24 This Special Issue Atmospheric Conditions for Wind Energy Applications hosts papers on aspects of remote sensing for atmospheric conditions for wind energy applications. Wind lidar technology is presented from a theoretical view on the coherent focused Doppler lidar principles. Furthermore wind lidar for applied use for wind turbine control, wind farm wake and gust characterizations is presented as well as methods to reduce uncertainty when using lidar in complex terrain. Wind lidar observations are used to validate numerical model results. Wind Doppler lidar mounted on aircraft used for observing winds in hurricane conditions and Doppler radar on the ground used for very short term wind forecasting are presented. For the offshore environment floating lidar data processing is presented as well as an experiment with wind profiling lidar on a ferry for model validation. Assessments of wind resources in the coastal zone using wind profiling lidar and global wind maps using satellite data are presented.

Bulletin, 1998 **The Internationalisation of Legal Education** Christophe Jamin, William van Caenegem, 2016-04-30 This volume provides an overview of the state of internationalisation of legal education IOLE in many civil law and common law countries. It provides a picture of the status of the debate about the shape and degree of internationalisation in the curriculum in the different countries and the debates surrounding the adoption of a more international approach to legal education in the contemporary world. It is a compilation of the National Reports submitted for the August 2014 Congress of the IACL held at Vienna and contains an introductory general report. Together the reports examine such questions as Why is

the topic of internationalization of legal education on the agenda now Why is it a relevant subject for examination today Does the topic generate the same level of interest everywhere in the world Is enthusiasm for IOLE mainly driven by the academic sector by government by multinational corporations Is the interest closely linked with the globalization of the practice of law Or is globalisation of law itself something of a myth or a reality reserved for only a very small percentage of practising lawyers around the world The general and national reports make clear that there is indeed widespread interest in IOLE and numerous disparate initiatives around the world Nonetheless some National Reporters state that the topic is simply not on the agenda at all All in all the volume shows that the approaches to internationalisation are many and varied but every jurisdiction recognises the importance of introducing aspiring lawyers to a more integrated global environment
