

# Unit 1 Study Guide: Origins of a Western Worldview

## Chapter 1 - 3

### INTRODUCTION – OUR WORLDVIEWS

**Worldview** – is a collection of values (a moral standard of behavior) and beliefs (something accepted as true) about life that is common to a group. In other words, the basis for the way you act, way you react and way you feel about the world.

**Society** - a group of people linked by common activities or interests and sharing a location; a group of humans defined by mutual interests, shared institutions and a common culture

**Western world** – societies that are based on the worldview that developed in Western Europe

Example: A worldview of people in the western world:

- All people are treated equals
- Individual rights and freedoms are valued
- We must make the most of our lives on earth
- Basic education should be available to all
- Everyone has the right to access primary needs such as food, shelter, clothing and water
- If opportunity arises to improve our quality of life we take it
- Democracy
- Money / wealth is important to maintain a good quality of life

As Canadians we have common values and beliefs in our approaches, i.e. Medical care, education, religion, arts, etc. that is different from worldviews from other countries.

Due to Canada's size, our worldview may change slightly if you live on the East Coast, West Coast, Ontario or Prairie Provinces. It may be slightly different again if you are aboriginal (oral traditions, ties to the land) vs. francophone (religion, language and education rights) vs. Anglophone.

Canada is multicultural and immigrants bring their worldview with them to Canada, as they become part of Canadian society, they begin to understand and adopt our values and beliefs.

*Hitler's Police Battalions* Edward B. Westermann, 2005 When the German Wehrmacht swarmed across Eastern Europe an elite corps followed close at its heels Along with the SS and Gestapo the Ordnungspolizei or Uniformed Police played a central role in Nazi genocide that until now has been generally neglected by historians of the war Beginning with the invasion of Poland the Uniformed Police were charged with following the army to curb resistance pacify the countryside patrol Jewish ghettos and generally maintain order in the conquered territories Edward Westermann examines how this force emerged as a primary instrument of annihilation responsible for the murder of hundreds of thousands of the Third Reich's political and racial enemies In *Hitler's Police Battalions* he reveals how the institutional mindset of these ordinary policemen allowed them to commit atrocities without a second thought To uncover the story of how the German national police were fashioned into a corps of political soldiers Westermann reveals initiatives pursued before the war by Heinrich Himmler and Kurt Daluege to create a culture within the existing police forces that fostered anti-Semitism and anti-Communism as institutional norms Challenging prevailing interpretations of German culture Westermann draws on extensive archival research including the testimony of former policemen to illuminate this transformation and the callous organizational culture that emerged Purged of dissidents indoctrinated to idolize Hitler and trained in military combat these police battalions often numbering several hundred men repeatedly conducted actions against Jews Slavs gypsies asocials and other groups on their own initiative even when they had the choice not to In addition to documenting these atrocities Westermann examines cooperation between the Ordnungspolizei and the SS and Gestapo and the close relationship between police and Wehrmacht in the conduct of the anti-partisan campaign of annihilation Throughout Westermann stresses the importance of ideological indoctrination and organizational initiatives within specific groups It was the organizational culture of the Uniformed Police

he maintains and not German culture in general that led these men to commit genocide Hitler's Police Battalions provides the most complete and comprehensive study to date of this neglected branch of Himmler's SS and Police empire and adds a new dimension to our understanding of the Holocaust and the war on the Eastern front

web quadratic word problems projectile motion uploaded by yaw197 projectile is any object that is thrown shot or dropped a projectile is launched at 19 meters per second m/s from a 58.8 meter tall platform equation for the object s height s at time t seconds after launch is  $s = -4.9t^2 + 19.6t + 58.8$  where s is in meters copyright

applications of quadratic equations projectile motion - Apr 16 2023

web this section describes using quadratic equations to solve word problems involving numbers geometrical figures and motion read this section and work through the examples projectile motion

*quadratic word problems part 1 stem resource finder* - Dec 12 2022

web quadratic word problems part 1 students solve two problems involving the motion of projectile objects modeled using quadratic equations students graph parabolas and use the graphs to answer questions about projectile objects

*quadratic word problems projectile motion free pdf guide* - May 17 2023

web jan 2 2017 projectile motion describes the path that objects like rockets take when thrown or launched up into the air

since projectile motion follows the path of a parabola these types of situations can be described using quadratic equations now do you see why science and math teachers love these word problems

[quadratic equations word problem algebra video khan academy](#) - Jun 06 2022

web and the quadratic formula tells us that the roots and in this case it s in terms of the variable t are going to be equal to negative b plus or minus the square root of b squared minus 4ac all of that over 2a so if we apply it we get t

[how to solve quadratic projectile motion problems purplemath](#) - Sep 21 2023

web a major category of quadratic equation word problems relates to what is called projectile motion for our purposes a projectile is any object that is thrown shot or dropped almost always in this context the object is initially moving directly up or straight down
