R. Dias, Ph.D.,2016-10-10 Mr President s Handy Multiplication Table By J R Dias Ph D Mr President s Handy Multiplication Table is a powerful and fun tool that will enable kids and adults to learn the whole multiplication table quickly and without memorization Readers will reap the many benefits from facing their fears and mastering the multiplication table [The Best Way to Learn Multiplication Tables](#) Oksana Siniukov,Maryna Kuznetsova,Math Country,2020-04-09 The Math Country team is made up of practicing mathematics teachers with a combined teaching experience of more than 35 years who are also authors of unique methods of intensive children s education In any beginner math course a big chunk of time is spent on learning the multiplication table It s not a secret that just memorizing tables isn t fun for kids It s proportionate how much work has to be put in to somehow convince the kid that learning this table will in fact be useful later in life The multiplication table isn t easy for kids to remember so a big part of this training regime is spent on making it easier for kids to memorize it It is critical that the child experiences the joy of figuring out ideas on their own that they form self esteem and trust in their

own abilities and also the curiosity to learn These are the defining factors when it comes to accessing the overall intellectual development of a child The material is recommended for self training of grade 2 3 classes The contents naturally join into the material kids of that age are learning in school about multiplication tables Our material fits into any education program The system of additional exercises leads to development of mental abilities such as memory attention imagination logical and spacial thinking and artistic abilities Instead of tedious repetitive memorization the child will understand and easily remember the multiplication material Exercises that are interesting allow those learning to quicker acquire the material and appreciate math for what it is not just tedious repetitive memorization **Know Your Times Tables!** Andrew

Ashcroft, 2017-11-19 This is a simple book of lists for a child to train with There are no distracting pictures or complicated puzzles It is intended to complement teaching which should begin at a concrete level so that the child understands what multiplication is about and for A thorough knowledge of multiplication tables makes it easier for a child to understand later Mathematics where this knowledge is intrinsic to success From working with multiplication teaching in school often moves to division fractions area volume and equations amongst other concepts Children can feel very stressed if they are not equipped with a sound knowledge of the multiplication tables This book gives a structure to learning Many children have enjoyed the rhymes and rhythms of verses poems and songs learned earlier on and being able to recite multiplication tables builds partly on these experiences Mathematics should be multi sensory Seeing and reciting aloud are two of these elements Discussion is important too One can also look at the number patterns in the lists or ask questions about them Have little quizzes or ask questions in an everyday context e g How many days are there in five weeks 7×5 How many shoes are there if I own four pairs 2×4 It is not a book to write in From the two times table to the ten times table there are two versions of each table First the complete table with both factors and the product Second the table without the product so that the child can read the table aloud and supply the product With the edge of a sheet of paper one can also cover over the products in the first list and lift the paper to check Knowing multiplication tables is great for a child s self esteem However children need adults The best way to learn is little and often one table at a time for a few minutes each day with the guidance of a patient and loving adult The intention of this book is to give structure to this learning which is a great gift and a key to success in Mathematics ANDREW ASHCROFT is an experienced teacher of Mathematics and knows that children aged 7 10 who succeed in learning multiplication facts feel more confident later with new concepts that are based on multiplication He has also helped teenagers who struggle with Mathematics and saw how damaging it was to their success and self esteem that they had not learned multiplication tables and were struggling with new concepts that required this understanding This book is for parents interested in helping their children and teachers who want a clear uncluttered list for their pupils to practice with
