It is also an invaluable resource which can easily be used to cover the outcomes of the new CfE National 4 course being introduced to Scottish schools. It is a pupil-friendly book and is one of our biggest selling resources. We found that pupils who struggled with the complexities of other General resources on the market and who found the sudden change of pace and the level of difficulty too great to cope with, felt a lot more comfortable with our 3G and 4G textbooks. In Book 3G we truncated the work in some chapters, for example Pythagoras, Hypotenuse only, Circle work, Circumference only, Trigonometry, Tangent only, Tan tables at back of book, in order to allow pupils to have access to these topics and feel confident with the work without burdening them with all the tricky bits. Though the missing topics from these chapters were covered in the Extension Materials in 3G, they are reproduced in this book with changed numbers.
