The Politics of Vietnamese Craft Jennifer Way, 2019-10-03 Jennifer Way's study The Politics of Vietnamese Craft uncovers a little known chapter in the history of American cultural diplomacy in which Vietnamese craft production was encouraged and shaped by the US State Department as an object for consumption by middle class America Way explores how American business and commerce department stores the art world and national museums variously guided the marketing and meanings of Vietnamese craft in order to advance American diplomatic and domestic interests Conversely American uses of Vietnamese craft provide an example of how the United States aimed to absorb post colonial South Vietnam into the Free World in a Cold War context of American anxiety about communism spreading throughout Southeast Asia Way focuses in particular on the part played by the renowned American designer Russel Wright contracted by the US International Cooperation Administration's aid programs for South Vietnam to survey the craft industry in South Vietnam and manage its production distribution and consumption

abroad and at home Way shows how Wright and his staff brought American ideas about Vietnamese history and culture to bear in managing the making of Vietnamese craft *Vietnamese Collection* Conrad Grebel College. Kelley, Gerard Sasges, 2024-07-22 This open access book provides fascinating insights into the incredible changes that Vietnam underwent in the long twentieth century as it transformed from an early modern kingdom to a European colony to a divided land with opposing ideologies and to a unified country in a globalized world At each stage in this long century of changes there were Vietnamese who sought to mold their society into some vision of modernity The book looks at multiple rather than one form of modernity and links those forms with the different political moments that Vietnam experienced in tandem with the outside interlocutors that were maintained during those periods As such this book provides a holistic view of the many forms of modernity and their global links that can be found in Vietnam over the course of the long twentieth century These multiple modernities are documented in this book and the authors do so by bringing together the strengths of traditional language based area studies scholarship with the insights that an awareness of trans national and global perspectives provides Relevant to historians and researchers in the broader arena of Southeast Asian studies with a particular interest in Vietnam its journey from past to present this book is a must read engagement with
