The Warrior State Pakistan In The Contemporary World:

The Warrior State T.V. Paul, 2014-01-02 Seemingly from its birth Pakistan has teetered on the brink of becoming a failed state Today it ranks 133rd out of 148 countries in global competitiveness Its economy is as dysfunctional as its political system is corrupt both rely heavily on international aid for their existence Taliban forces occupy 30 percent of the country It possesses over a hundred nuclear weapons that could easily fall into terrorists hands Why in an era when countries across the developing world are experiencing impressive economic growth and building democratic institutions has Pakistan been such a conspicuous failure In *The Warrior State* noted international relations and South Asia scholar T V Paul untangles this fascinating riddle Paul argues that the geostrategic curse akin to the resource curse that plagues oil rich autocracies is at the root of Pakistan's unique inability to progress Since its founding in 1947 Pakistan has been at the center of major geopolitical struggles the US Soviet rivalry the conflict with India and most recently the post 9 11 wars No matter how ineffective the regime is massive foreign aid keeps pouring in from major powers and their allies with a stake in the region The reliability of such aid defuses any pressure on political elites to launch the far reaching domestic reforms necessary to promote sustained growth higher standards of living and more stable democratic institutions Paul shows that excessive war making efforts have drained Pakistan's limited economic resources without making the country safer or more stable Indeed despite the regime's emphasis on security the country continues to be beset by widespread violence and terrorism In an age of transnational terrorism and nuclear proliferation understanding Pakistan's development particularly the negative effects of foreign aid and geopolitical centrality is more important than ever Painstakingly researched and brilliantly argued *The Warrior State* tackles what may be the world's most dangerous powder keg and uncovers the true causes of Pakistan's enormously consequential failure

The Warrior State Thazha Varkey Paul, 2014 **Pakistan's Democratic Transition** Ishtiaq Ahmad, Adnan Rafiq, 2016-11-03 Politics in Pakistan has traditionally been understood in the context of civil military relationship In May 2013 for the first time in history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government In view of such an important development this book offers critical perspectives on Pakistan's current democratic transition and its implications for national politics security and foreign policy It critically analyses the emerging political trends in the country including their underlying sources attributes constraints and prospects of sustainability Drawing on history diverse theoretical perspectives and empirical evidence it explains the dynamics of the democratic process contested borders and spaces and regionalism Contributions are from 13 prominent scholars in the field who provide a wide ranging analysis of Pakistan's contemporary national and regional challenges as well as the opportunities they entail for its viability as a democratic state Taking the debate on Pakistan beyond the outmoded notions of praetorian politics and security the book explores the future prospects of civilian supremacy in the country It will be of interest to students and scholars of South Asian Politics Political Sociology and Security Studies as well as policy

makers diplomats security experts and military professionals *Deconstructing India-Pakistan Relations* Sanjeev Kumar H. M.,2023-12-14 This book examines the complex dynamics of India Pakistan relations by situating the same in the postcolonial setting of the subcontinent In pursuit of this the book analyses the impact of the linkages between the postcolonial processes of state making and the structuring of political communities upon the evolution of the problematic of state security in South Asia For the purpose of undertaking this task the author deconstructs the countries colonial history with an aim to map its impact on the making of the foreign policy of Pakistan Drawing primarily from colonial discourse theory and historical sociology the book links the trajectory of Pakistan s international politics to its domestic politics and weak state inheritances By doing this it offers a stimulating treatment of the history of the country s troubled postcolonial relations with India This has been done in the book by presenting the modes by which the religious military and politico bureaucratic classes that constitute the power elite in Pakistan tended to have moulded an India centred State security problematic This book will be of interest to researchers studying South Asian security India Pakistan relations and the defence and foreign policy of Pakistan **India-Pakistan Strategic Relations** Christoph Mumtaz, Uzma Bluth,2020-05-25 India and Pakistan have been in a state of persistent conflict that goes back to the very creation of these states after decolonization This conflict has resulted in several wars and continuing armed clashes After both states became nuclear powers one would have expected a fundamental change in the way they wage war since it is a fundamental principle of International Relations theory that nuclear armed states do not go to war with each other But the situation in South Asia seems to defy this principle India s conventional superiority should be neutralized by Pakistan s nuclear capability while Pakistan s risk taking behavior should be reduced But as a matter of fact the situation has turned out quite differently Although large scale conventional wars have not occurred the nuclear status seems to have encouraged conflict and risk taking The number of armed clashes rose Bluth and Mumtaz scrutinize the atypical and seemingly paradoxical impact of nuclearization on the conflict between India and Pakistan paying extra attention on the question of how stable this paradoxical strategic relationship is They demonstrate that the dominant paradigm used in the International Relations literature is by far not adequate to explain the strategic relations between India and Pakistan and set to work on developing a more coherent explanation A must read for everyone interested in International Relations and conflict resolution research *Hubris, Self-Interest, and America's Failed War in Afghanistan* Thomas P. Cavanaugh,2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US

dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system. The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who, aware of America's logistical dependency on Islamabad, supported the Afghan insurgents; their historical proxies more and more openly. The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations, destabilizing the area further. In the meantime, the need to justify the extension of its military presence influenced the US-led coalition into proclaiming its determination to democratize and reconstruct Afghanistan. While highly opportunistic, the emergence of these policies proved both self-defeating and unsustainable due to an inescapable collision between the US-led coalition's inherent self-interest, hubris, limited knowledge, limited attention span, and limited resources and, on the other hand, Afghanistan's inherent complexity. As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration, scale, and cost, America's leaders, entrapped in path dependence, lost their strategic flexibility. Despite debates on troops, resource allocation, and more sophisticated doctrines, they repeated the same structural mistakes over and over again. The strategic overreach became self-sustaining until its costs became intolerable, leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough.

Pakistan's National Security Approach and Post-Cold War Security Arshad Ali, 2021-03-31. This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy, and security proxy wars, and the hyper-military industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic, and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security, and Cold War Studies.
