After the first two days of the experiment, the mean number of errors per trial was 1.25, and the mean number of errors per trial for the last two days was 0.75.

10. **What is the primary function of the brain?** **Control and coordination.**

11. **What is the primary purpose of the `get` method in the `getters` object?**

118 ~~Most of the country's rivers have been heavily dammed, so the main source of energy is hydroelectric power. This is a relatively clean and renewable source of energy, but it has~~
119 ~~displaced the indigenous tribes who live on the rivers. This has led to a loss of biodiversity and a~~
120 ~~number of environmental disputes over the use of hydroelectric power.~~
121 ~~There are also concerns over the impact of hydroelectric power on the environment, as it~~
122 ~~uses a lot of water, which can affect the local ecosystem and the availability of water for~~
123 ~~other purposes, such as agriculture and drinking water.~~
124 ~~However, there are some environmental benefits to hydroelectric power, such as the~~
125 ~~reduction of greenhouse gas emissions and the creation of jobs in the renewable energy~~
126 ~~sector.~~
127 ~~Overall, hydroelectric power is a controversial topic, with both benefits and drawbacks.~~
128 ~~It is important to consider the environmental impact of hydroelectric power and to~~
129 ~~balance it with other energy sources to ensure a sustainable future.~~
130 ~~Despite these challenges, hydroelectric power remains a key source of energy in the world.~~
