growing and by far promising opportunity to establish qualified leads In addition country specific advertising messages are completed with corresponding keywords and well placed with YouTube videos in local Search Engines to achieve qualified groups of customers who are in search of new products or services Marketing specialists analyze and advance the achieved results simultaneously and adjust their marketing strategies immediately As a consequence there is a better cost planning target groups are scaled more precisely and the cost benefit ratio is a sight better for both B2B and B2C The obvious questions are what business motivations give evidence of a fruitful cooperation at the hands of international SEM and YouTube videos Which contents and keywords convert YouTube videos into a guarantee for success and which are critically for a profitable SEM And after all which customer is searching where for what and why These and further questions will be examined and clarified over the course of the next following sites

*Anthem of Misogyny* Ibtissam Bouachrine, 2022-10-03

*Anthem of Misogyny* The War on Women in North Africa and the Middle East argues that misogyny which operates through an interconnected network of ideologies institutions beliefs aesthetics and cultural trends is too complex and too deep rooted to eradicate with superficial changes Like a national anthem misogyny in North Africa and the Middle East has acquired a sacred status It is accepted uncritically and woven effortlessly into daily practices creating a community of men of different ages educational levels and socioeconomic backgrounds who are united in their sense of entitlement to evaluate scrutinize deter question and expose women For women it is as if they are in a state of perpetual war forever on the verge of being accused of deviating from the norms and being punished These norms however are neither clear nor predictable This study of misogyny is written against a dominant orthodoxy in Western feminism Critics are accused of gendered orientalism savior complexes and even Islamophobia if they dare to bring up misogyny and gender based violence in North Africa and the Middle East in contexts other than calling it a Western created issue Rather than exaggerate Western agency this book is invested in making Muslim agency visible There are narratives of violence and injustice that produce discomfort anger and even despair These stories deserve to be told and those behind the injustices are entitled to an unfiltered portrayal because the non West too is deserving of unapologetic feminist critique

Before the launch of YouTube in 2005 the enormous effects of this online phenomenon on all aspects of society could hardly be foreseen In 2011 however it is obvious that YouTube and other online media affect every day life including political decision making in many ways The 2004 US presidential election is often referred to as the first internet election as the candidates Howard Dean in particular started to use blogs and websites to raise money and convince voters online Zielmann R ttger 2009 77 By 2008 the internet had become even more diverse and complex and offered a lot of new online functions like social networking sites Facebook and video sharing sites YouTube These new opportunities were used by most of the candidates in the 2008 presidential election The later US President Barack Obama as well as his internal opponent Hillary Clinton made use of the internet to spread their political messages and address especially the younger voters A study that was conducted by the Pew Internet American Life Project during the 2008 election campaign proved that 40% of all adults accessed information about politics on the internet It also showed that viewers of politically relevant YouTube videos had become a key part of at least some campaign events Rainie Smith 2008 In 2008 the online world was not new to most people but it was used as a major propaganda tool by most politicians and their campaign teams for the first time In the Democratic primary elections several candidates did not announce their candidacy in the traditional press but online On July 23 2007 the first ever political debate took place on YouTube
