*The Life-Giving Sword* Yagyu Munenori,2012-12-11 A real life

samurai s Zen teachings on sword training as a spiritually transformative practice essential reading for aspiring martial artists and strategic thinkers alike The legendary seventeenth century swordsman Yagyu Munenori was the sword instructor and military and political adviser to two shoguns and a great rival to Miyamoto Musashi Despite his martial ability and his political power Munenori s life was spent immersed in Zen teachings These teachings formed the framework for his deeply spiritual approach to sword fighting Munenori saw in the practice of the sword a way to transform the student into a total human being The Life Giving Sword is Munenori s manifesto on his approach His central themes are the life giving sword the idea of controlling one s opponent by spiritual readiness to fight rather than by actual fighting and No Sword which is the idea that the mind must be free of everything even the sword itself in order to get to the place of complete mastery Munenori s ideas are applicable not only to martial arts but to business and human relations as well

*The Invention of Martial Arts*

Paul Bowman,2020-12-17 Through popular movies starring Bruce Lee and songs like the disco hit Kung Fu Fighting martial arts have found a central place in the Western cultural imagination But what would martial arts be without the explosion of media texts and images that brought it to a wide audience in the late 1960s and early 1970s In this examination of the media history of what we now call martial arts author Paul Bowman makes the bold case that the phenomenon of martial arts is chiefly an invention of media representations Rather than passively taking up a preexisting history of martial arts practices some of which of course predated the martial arts boom in popular culture media images and narratives actively constructed martial arts Grounded in a historical survey of the British media history of martial arts such as Bartitsu jujutsu judo karate tai chi and MMA across a range of media this book thoroughly recasts our understanding of the history of martial arts By interweaving theories of key thinkers on historiography such as Foucault and Hobsbawm and Said s ideas on Orientalism with analyses of both mainstream and marginal media texts Bowman arrives at the surprising insight that media representations created martial arts rather than the other way around In this way he not only deepens our understanding of martial arts but also demonstrates the productive power of media discourses
