The Visual Culture Of Chabad:

The Visual Culture of Chabad Maya Balakirsky Katz,2010-10-11 This book is the first full length study of a complex visual tradition associated with the Hasidic movement of Chabad *Studying Hasidism* Marcin Wodzinski,2019-08-09 Studying Hasidism edited by internationally recognized historian of Hasidism Marcin Wodzinski introduces previously untapped sources such as folklore music or material culture and shows how they can be employed to answer new questions in the history of Hasidism *Fundamentalism* Simon A. Wood,David Harrington Watt,2014-05-26 Essays considering how global fundamentalism influences our understanding of modern Christianity Judaism and Islam Thirty years after the Iranian Revolution and more than a decade since the events of 2001 the time is right to examine what the discourse on fundamentalism has achieved and where it might head from here In this volume editors Simon A Wood and David Harrington Watt offer eleven interdisciplinary perspectives framed by the debate between advocates and critics of the concept of fundamentalism that investigate it with regard to Christianity Islam and Judaism The essays are integrated through engagement with a common selection of texts on fundamentalism and a common set of questions about the utility and disadvantages of the term its varied application by scholars of particular groups and the extent to which the term can encompass a cross cultural set of religious responses to modernity Although the notion of fundamentalism as a global phenomenon dates from around 1980 the term itself originated in North American Protestantism approximately six decades earlier and acquired pejorative connotations within five years of its invention Since the early 1990s however many scholars have endorsed the view that the notion of fundamentalism as relying on literalist interpretations of the scriptures firm commitment to patriarchy or refusal to confine religious matters to the private sphere facilitates our understanding of modern religion by enabling us to identify and label structurally analogous developments in different religions Critics of the term have identified problems with it above all that the idea of global fundamentalism confuses more than it clarifies and unjustifiably overlooks downplays or homogenizes difference more than it identifies a genuine homogeneity The editor's rigorous exploration of both the usefulness and the limitations of the concept make it an excellent counterpoint to the many books that have a great deal to say about the former and very little to say about the latter It will also serve as an ideal text for religious studies history and anthropology courses that explore the complex interface between religion and modernity as well as courses on theory and method in religious studies **Intersections between Jews and Media** Maya Balakirsky Katz,2020-03-23 In this volume the relationship between Jews and media is not only vividly illustrated but it is consciously drawn into the formation of modern Jewish history and modern media Maya Balakirsky Katz addresses key Jewish media intersections in which Jews and mass media implicated or were implicated by one another In this study Katz discusses the relationship that Jews have had with mass media forms of print film photography advertising and postcards within the periods that these media have gained cultural ascendancy These historical moments are tethered to a broader conversation

addressing the major theoretical issues at the center of the discourse on Jews and media Bearing this mutually constructive relationship in mind Intersections between Jews and Media offers both a tangible demographic portrait of the real Jews who entered mass media and lays a theoretical and methodological framework for more qualitative analyses Encyclopedia of Religion in America Charles H. Lippy,Peter W. Williams,2010 Explores the origins development influence and interrelations of the many faiths practiced in North America including major world religions and emerging sects cults and movements

Andrea Robbins and Max Becher Maurice Berger,2008 This exhibition and catalog present the first examination of the portrait photographs of Andrea Robbins and Max Becher The artists portraits like their radical landscapes and city scenes are powerfully evocative boldly subverting our expectations of the discipline of portraiture Rather than capturing the visual essence of a sitter they reveal identity to be multifarious transitive and culturally and historically bound Robbins and Becher capture their subjects in ways that transform enhance and accentuate social and cultural meaning They do so with the full complicity and respect of the people they photograph They spend weeks living with each community they document They immerse themselves in the stories of its citizens and history They interview its residents and participate in their rituals and customs They photograph them in various active stages of work play and home life Most important they allow their subjects

to represent themselves not only as they would like to be seen but also in ways that illuminate the complexity of their humanity By seeing identity as volatile mutable and contingent these improbable portraits remind us that who we are is as much a matter of choice as destiny **BOOK JACKET** **The Schocken Guide to Jewish Books** Barry W.
