**Ecosystem Justice** Scott Kellogg, 2021-09-22 Merging together the fields of urban ecology environmental justice and urban environmental education Urban Ecosystem Justice promotes building fair accessible and mutually beneficial relationships

between citizens and the soils water atmospheres and biodiversity in their cities This book provides a framework for re centering issues of justice and fairness in sustainability discourse while challenging the profound ecological alienation experienced by urban residents While the urban sustainability movement has had many successes in the past few decades

there remain areas for it to grow For one the benefits of sustainability have disproportionately benefited wealthier city residents with concerns over equity justice and social sustainability frequently taking a back seat to economic and

environmental considerations Additionally many city dwellers remain estranged from and unfamiliar with ecological processes with urban environments often thought of as existing outside of nature or as hopelessly degraded Through a citizen centered lens the book offers a guide to reconciling these issues by demonstrating how questions of equity access and justice apply to the biophysical dimensions of the urban ecosystem soil water air waste and biodiversity Drawing heavily from the fields of urban ecology environmental justice and ecological design this book lays out a science of cities for people a

pedagogical platform that can be used to promote ecological literacy in underrepresented urban communities through affordable and decentralized means This book provides both a theoretical and practical field guide to students and researchers of urban sustainability city planners architects policymakers and activists wishing to develop reciprocal relationships with urban ecologies *Earth Repair* Leila Darwish,2013-06-25 Details grassroots bioremediation techniques and strategies for transforming environmental despair into action including the use of plants to extract toxins and fungi to clean contaminated water and soil
