Topics in Corpus-based Dutch Syntax Leonoor Johanneke van der Beek,2005   **The Handbook of Lexical Functional Grammar** Mary Dalrymple,2023-12-14 Lexical Functional Grammar LFG is a nontransformational theory of linguistic structure first developed in the 1970s by Joan Bresnan and Ronald M Kaplan which assumes that language is best described and modeled by parallel structures representing different facets of linguistic organization and information related by means of functional correspondences This volume has five parts Part I Overview and Introduction provides an introduction to core syntactic concepts and representations Part II Grammatical Phenomena reviews LFG work on a range of grammatical phenomena or constructions Part III Grammatical modules and interfaces provides an overview of LFG work on semantics argument structure prosody information structure and morphology Part IV Linguistic disciplines reviews LFG work in the disciplines of historical linguistics learnability psycholinguistics and second language learning Part V Formal and computational issues and applications provides an overview of computational and formal properties of the theory implementations and computational work on parsing translation grammar induction and treebanks Part VI Language families and regions reviews LFG work on languages spoken in particular geographical areas or in particular language families The final section Comparing LFG with other linguistic theories discusses LFG work in relation to other theoretical approaches

Thetics and Categoricals Werner Abraham,Elisabeth Leiss,Yasuhiro Fujinawa,2020-07-22 Thetics and Categoricals do not belong to the categories of German grammar Thetics were introduced in logic as impersonal and broad focus constructions They left profound and extensive traces in the logic of the late 19th century For the class of thetic propositions the criterion of textual exclusion plays the major role i e the absence of any common grounds and of any anaphorism and background In the foreground are sentences with sub ject inversion subject suppression and detopicalization These and only these are suitable for text begin nings jokes stage advertisements and solipsistic exclamatives thus speech acts without com mu nicative goals free expressives in the true sense of the word The contribu tions in this volume not only guide the reader through the history of philosophical logic and distributions of impersonals in contrast to Kantian categorical sentences but also the correspondences in Japanese and Chinese which in contrast to German and English sport specific morphological markers for thetics as opposed to categoricals   **Cycles in Language Change** Miriam Bouzouita,Anne Breitbarth,Lieven Danckaert,Elisabeth Witzenhausen,2019-09-18 This volume explores the multiple aspects of cyclical syntactic change from a wide range of empirical perspectives The notion of linguistic cycle has long been recognized as being relevant to the description of many processes of language change In grammaticalization a given linguistic form loses its lexical meaning and sometimes some of its phonological content and then gradually weakens until it ultimately vanishes This change becomes cyclical when the grammaticalized form is replaced by an innovative item which can then develop along exactly the same pathway But cyclical changes have also been observed in language change outside of grammaticalization proper The

chapters in this book reflect the growing interest in the phenomenon of grammaticalization and cyclicity in generative syntax with topics including the diachrony of negation the syntax of determiners and pronominal clitics the internal structure of wh words and logical operators cyclical changes in argument structure and the relationship between morphology and syntax The contributions draw on data from multiple language families such as Indo European Semitic Japonic and Athabascan The volume combines empirical descriptions of novel comparative data with detailed theoretical analysis and will appeal to historical linguists working in formal and usage based frameworks as well as to typologists and scholars interested in language variation and change more broadly *The Oxford Handbook of English Grammar* Bas Aarts,Jill Bowie,Gergana Popova,2019-11-14 This handbook provides an authoritative critical survey of current research and knowledge in the grammar of the English language Following an introduction from the editors the volume s expert contributors explore a range of core topics in English grammar beginning with issues in grammar writing and methodology Chapters in part II then examine the various theoretical approaches to grammar such as cognitive constructional and generative approaches followed by the chapters in part III which comprehensively cover the different subdomains of grammar including compounds phrase structure clause types tense and aspect and information structure Part IV offers coverage of the relationship between grammar and other fields lexis phonology meaning and discourse while the concluding part of the book investigates grammatical change over time regional variation and genre and literary variation The handbook s wide ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards Issues in the Study of Pidgin and Creole Languages Claire Lefebvre,2004-02-26 The content of this book is concerned with various issues at stake in Creole studies that are also of interest for general linguistics These include the general issue of Creole genesis and of the accelerated linguistic change that characterizes the emergence of these languages as compared to ordinary cases of linguistic change the problem of the development of morphology in incipient Creoles the problem of the validity of data in linguistic analysis the issue of multifunctionality as regards the concept of lexical entry the question of whether Creole languages are semantically more transparent than languages not known as Creoles the issue of whether Creole languages constitute a typologically identifiable class and the problem of the interaction between the processes involved in the emergence and development of Creole languages The purpose of this book is to present the major debates that are currently taking place in the field of Creole studies evaluate the arguments against data mainly drawn from Haitian Creole and address the issues at stake within the framework of new paradigms The various positions on each issue are summarized on the basis of a thorough review of the literature **Frequency Effects in Language Representation** Dagmar Divjak,Stefan Th. Gries,2012-08-31 The volume explores the relationship between well studied aspects of language constructional alternations lexical contrasts and extensions and multi word expressions in a variety of languages Dutch English Russian and Spanish and their representation in cognition as mediated by frequency counts in both text and experiment The state of the art data

collection ranging from questionnaires to eye tracking and analysis from simple chi squared to random effects regression techniques allow to draw theoretical conclusions from mis matches between different types of empirical data The sister volume focuses on language learning and processing **Linguistics and Language Behavior Abstracts** ,2007

Subjects in English Peter Uhrig,2018-06-11 The purpose of the book is twofold First it tries to give a descriptive account of subjects in English The second aim is to elucidate the status of the subject both as a concept in grammatical theory and with regard to the question whether the subject is determined by item specific arbitrary formal restrictions in the same way as postverbal complements of the verb have been shown to be Topics in Subjectification and Modalization Bert Cornillie,2006 As of Volume 9 1994 95 John Benjamins Publishing Company is the official publisher of the Belgian Journal of Linguistics the annual publication of the Linguistic Society of Belgium Each volume is topical and includes selected papers from the international meetings organised by the LSB This volume on subjectification and modalization sheds new light on two kinds of shifts i the shift from originally lexical reading toward propositional or procedural ones and ii the shift from direct speech to various forms of indirect speech The papers of this volume not only corroborate many of the assumptions and hypotheses on semantic and syntactic change made in the literature but also uncover the underlying principles that motivate these processes Five papers discuss the patterns lying behind the grammaticalization and subjectification of adverbs and verbs Three papers dwell on different ways of reporting or distancing the speaker s own or someone else s discourse and address the issue of how the speaker can make use of tense to modalize the proposition **International Journal of Corpus Linguistics** ,1999 **'Subordination' Versus 'coordination' in Sentence and Text** Cathrine Fabricius-Hansen,Wiebke Ramm,2008 The papers collected in this volume including a comprehensive introduction investigate semantic and discourse related aspects of subordination and coordination in particular the relationship between subordination coordination at the sentence level and subordination coordination or hierarchical non hierarchical organization at the discourse level The contributions in part I are concerned with central theoretical questions part II consists of corpus based cross linguistic studies of clause combining and discourse structure involving at least two of the languages English German Dutch French and Norwegian part III contains papers addressing specific predominantly semantic topics relating to German English or French and the papers in part IV approach the topic of subordination coordination and rhetorical relations from a diachronic Old Indic and Early Germanic perspective The book aims to contribute to a better understanding of information packaging on the sentence and text level related within a particular language as well as cross linguistically Working Papers in Scandinavian Syntax ,1995 **Studies in Korean Morpho-syntax** Jaehoon Yeon,2005 Discusses issues in Korean morpho syntax from a functional typological perspective This book analyses Korean data from a cross linguistic perspective showing how cross linguistic generalisations can contribute to an understanding of the structures in individual languages **Modeling Discourse Topic** Dionysis Goutsos,1997 This book is a study of techniques used to

introduce continue and change the discourse topic in expository writing Discourse topic is examined by focusing on the sequential techniques and strategies in a step by step process To describe the process a model of sequentiality is proposed The aims of the book are to advance current thinking in discourse analysis and to provide a practical exemplar of expository discourse   *A Glossary of Corpus Linguistics* Paul Baker,Andrew Hardie,Tony McEnery,2006 Presents a comprehensive glossary of terms used in corpus linguistics This alphabetic guide provides definitions and discussion of key terms used in corpus linguistics Written by a team of experienced academics in the field it provides coverage of both traditional and contemporary terminology   **Leuven contributions in linguistics and philology** Instituut voor Dialectologie,1997
