## Snowblower

Model No. 33400—200000001 and Up

Model No. 33405—200000001 and Up

## Parts Catalog

### Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

### Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part. This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

### Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form  $8\beta$ . The 8 represents the reference number of the entire service assembly and the  $\beta$  represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 8, the tire by 8-1, the valve by 8-2, and the wheel by 8-3. When you order the assembly identified by reference number 8, you receive all parts identified by reference numbers 8-1, 8-2, and 8-3. However, you may also order any part individually. Reference numbers of this type appear in illustrations and in part lists.

### Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form  $2X37$ . This  $2$  represents the quantity of the part, the  $X$  is the multiplication symbol, and the  $37$  represents the reference number.

For example, in an illustration, the reference number  $2X37$  means that two of the parts identified by reference number 37 are indicated.
