Visual Methods in Psychology Paula Reavey, 2020-08-24 This comprehensive volume explores the set of theoretical methodological ethical and analytical issues that shape the ways in which visual qualitative research is conducted in psychology Using visual data such as film making social media analyses photography and model making the book uniquely uses visual qualitative methods to broaden our understanding of experience and subjectivity In recent years visual research has seen a growing emphasis on the importance of culture in

experience based qualitative methods Featuring contributors from diverse research backgrounds including narrative psychology personal construct theory and psychoanalysis the book examines the potential for visual methods in psychology In each chapter of the book the contributors explore and address how a visual approach has contributed to existing social and psychological theory in their line of research The book provides up to date insights into combining methods to create new multi modal methodologies and analyses these with psychology specific questions in mind It covers topics such as sexuality identity group processes child development forensic psychology race and gender and would be the ideal companion for those studying or undertaking research in disciplines like psychology sociology and gender studies

An Applied Visual Sociology: Picturing Harm Reduction Stephen Parkin, 2016-04-15 Exploring the value of photography and video as legitimate forms of social enquiry An Applied Visual Sociology Picturing Harm Reduction constitutes a guidebook for conducting applied visual sociology within health related or social science research projects providing a full account of the visual research journey and presenting a tested template for conducting theoretically driven sociologically informed research Against the background of the growing popularity of visual methods this book goes beyond using photographs for illustrative and descriptive purposes to emphasise the importance of sociological epistemological and analytical theory together with methods of data collection and the presentation of images for applied purposes As such An Applied Visual Sociology Picturing Harm Reduction offers a template for considering visual data as applied research providing a full account of the manner in which visual methods can inform research and specific interventions together with opportunities for students and practitioners to consider applied visual sociology in a series of practical or self study tasks It will therefore appeal not only to students and researchers involved in social and health related qualitative research or those seeking to conduct innovative visual projects within the social sciences but also to scholars interested in research methods visual ethnography and harm reduction approaches to drug use

The Oxford Handbook of Qualitative Research Patricia Leavy, 2014 The Oxford Handbook of Qualitative Research presents a comprehensive and student friendly overview of the field of qualitative research and is intended for students of all levels faculty and researchers across the social sciences It provides strong focus on methods instruction with coverage of theoretical approaches analysis writing evaluation and the politics of research

Applications of Social Research Methods to Questions in Information and Library Science Barbara M. Wildemuth, 2016-11-14 The second edition of this innovative textbook illustrates research methods for library and information science describing the most appropriate approaches to a question and showing you what makes research successful Written for the serious practicing librarian researcher and the LIS student this volume fills the need for a guide focused specifically on information and library science research methods By critically assessing existing studies from within library and information science this book helps you acquire a deeper understanding of research methods so you will be able to design more effective studies yourself Section one considers research questions most often asked in information and library science and explains how they arise from

practice or theory Section two covers a variety of research designs and the sampling issues associated with them while sections three and four look at methods for collecting and analyzing data Each chapter introduces a particular research method points out its relative strengths and weaknesses and provides a critique of two or more exemplary studies For this second edition three new chapters have been added covering mixed methods visual data collection methods and social network analysis The chapters on research diaries and transaction log analysis have been updated and updated examples are provided in more than a dozen other chapters as well

The Entrepreneurial University Y. Taylor, 2014-05-05 The entrepreneurial university has been tasked with making an impact This collection presents professional personal reflections on research experience and interpretative accounts of navigating fieldwork and broader publics politics and practices of disengagement primarily through a feminist queer and gender studies lens

The SAGE Handbook of Qualitative Research in Psychology Carla Willig, Wendy Stainton-Rogers, 2008 This handbook covers the qualitative methods used in psychology combining how to do it summaries with examination of historical and theoretical foundations Examples from recent research are used to illustrate how each method has been applied the data analysed and the insights gained

Visual Methods in Social Research Marcus Banks, 2001-03-09 There has been an explosion of interest in visual culture coming largely from work in sociology anthropology and cultural studies and while there are a number of practical and technical manuals available for film photographic and other visual media there is a dearth of writing that combines both the practical and the technical This book redresses this with a balanced approach that is written primarily for students in the social sciences who wish to use visual materials in the course of empirical qualitative field research It should also be of interest to experienced researchers who wish to expand their methodological approaches Visual methods provides empirical approaches to both image creation and image analysis drawing on a wide range of examples from research conducted on Egyptian television soap opera to the sale of ethnographic photographs in London auction houses to pornographic images on the Web New technologies are also included with image digitization and computer based multimedia extensively covered There are sections on using film and photographic archives and useful practical advice on publishing and presenting the results of visual research Marcus Banks stresses the material nature of visual media as objects that are entangled in social relations and argues for a humanistic engaged and reflexive approach to social research This book will be an indispensable guide for the use and study of social images

Journal of Psychology in Africa , 2008 Journal of Psychology in Africa (south of the Sahara, the Caribbean, and Afro-Latin America) , 2008
