## **Top Secret Images From The Stasi Archives:**

Images from the Stasi archives Simon Menner, 2013 Almost 300 000 people worked for the East German secret police per capita far more than were employed by agencies such as the CIA or the KGB Not quite fifty years after the Berlin Wall was built Simon Menner 1978 in Emmendingen discovered spectacular photographs in the Stasi archives that document the agency's surveillance work Formerly secret highly official photographs show officers and employees putting on professional uniforms gluing on fake beards or signalling to each other with their hands Today the sight of them is almost ridiculous although the laughter sticks in the viewer's throat This publication can be regarded as a visual processing of German history and an examination of current surveillance issues yet it is extremely amusing at the same time The fact that the doors of the opposite side the British or German intelligence services for example remained closed to the artist lends the theme an explosive force as well as a tinge of absurdity *Documentary Photography Reconsidered* Michelle Bogre, 2020-08-13

**Law's Documents** Katherine Biber, Trish Luker, Priya Vaughan, 2021-12-29 Illuminating their breadth and diversity this book presents a comprehensive and multidisciplinary view of legal documents and their manifold forms uses materialities and meanings In 1951 Suzanne Briet a librarian at the Bibliotheque Nationale in Paris famously said that an antelope in a zoo could be a document thereby radically changing the way documents were analysed and understood In the fifty years since this pronouncement the digital age has introduced a potentially limitless range of digital and technological forms for the capture and storage of information In their multiplicity and their ubiquity documents pervade our everyday life However the material intellectual aesthetic and political dimensions and effects of documents remain difficult to pin down Taking a multidisciplinary and international approach this collection tackles the question what is

a legal document in order to explore the material aesthetic and intellectual attributes of legal documentation the political and colonial orders reflected and embedded in documents and the legal archival and social systems which order and utilise information As well as scholars in law documentary theory history Indigenous studies art history and design theory and practice this book will also appeal to those working in libraries archives galleries and museums for whom the ongoing challenges of documentation in the digital age are urgent and timely questions *Photography and Place* Donna West Brett, 2015-12-07 As a recording device photography plays a unique role in how we remember places and events that happened there This includes recording events as they happen or recording places where something occurred before the photograph was taken commonly referred to as aftermath photography This book presents a theoretical and historical analysis of German photography of place after 1945 It analyses how major historical ruptures in twentieth century Germany and associated places of trauma memory and history affected the visual field and the circumstances of looking These ruptures are used to generate a new reading of postwar German photography of place The analysis includes original research on world renowned German photographers such as Thomas Struth Thomas Demand Michael Schmidt Boris Becker and Thomas Ruff as well as photographers largely unknown in the Anglophone world *The Collapse* Mary Elise Sarotte, 2014-10-07 On the night of November 9 1989 massive crowds surged toward the Berlin Wall drawn by an announcement that caught the world by surprise East Germans could now move freely to the West The Wall infamous symbol of divided Cold War Europe seemed to be falling But the opening of the gates that night was not planned by the East German ruling regime nor was it the result of a bargain between either Ronald Reagan or George H W Bush and Soviet leader Mikhail Gorbachev It was an accident In *The Collapse* prize winning historian Mary Elise Sarotte reveals how a perfect storm of decisions made by daring underground revolutionaries disgruntled Stasi officers and dictatorial party bosses sparked an unexpected series of events culminating in the chaotic fall of the Wall With a novelist's eye for character and detail she brings to vivid life a story that sweeps across Budapest Prague Dresden and Leipzig and up to the armed checkpoints in Berlin We meet the revolutionaries Roland Jahn Aram Radomski and Siggie Schefke risking it all to smuggle the truth across the Iron Curtain the hapless Politburo member G Schabowski mistakenly suggesting that the Wall is open to a press conference full of foreign journalists including NBC's Tom Brokaw and Stasi officer Harald Jir holding the fort at the crucial border crossing that night Soon Brokaw starts broadcasting live from Berlin's Brandenburg Gate where the crowds are exulting in the euphoria of newfound freedom and the dictators are plotting to restore control Drawing on new archival sources and dozens of interviews *The Collapse* offers the definitive account of the night that brought down the Berlin Wall *Studies in Intelligence*, 2013 **The Times Index**, 1999 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement and the Times higher education supplement **The Guardian Index**, 2000 *La police politique en Union soviétique, 1918-1953*, 2002 *Cahiers du monde russe*, 2001 *International Currency*
