Visual Fields Visual Fields:

Computerized Visual Fields William R. Whalen, George L. Spaeth, 1985 **Visual Fields**, 1991 Concentrates on 100 common and uncommon visual defects encountered in practice Each case presentation includes a documented history corroborating the disease and the corresponding visual defect in the style of a problem oriented clinical record **Visual Fields via the Visual Pathway** Fiona Rowe, 2008-04-15 This textbook is a dynamic exploration of the relationship between the visual pathway and visual field impairments Aimed at the practitioner or student of visual fields the clinical focus of the book is oriented towards differential diagnosis and will assist the reader in identifying the site of a lesion The emphasis is on detection and interpretation of visual field defects rather than the background and psychophysics of visual field assessment Discussion of the normal visual field is included for comparative purposes The structure of the book traces the visual pathway anatomically from front to back and is supplemented by information on methodology and programme choice *Visual Fields* Thomas Walsh, 2010-11-12 *Visual Fields Examination and Interpretation* 3rd edition contains revisions and updates of earlier material as well as a discussion of newer techniques for assessing visual field disorders The book begins with a short history of the field of perimetry and goes on to present basic clinical aspects of examination and diagnosis of visual field defects in the optic nerve optic disc chorioretina optic chiasm optic tract lateral geniculate field bodies and the calcarine complex Additional aspects of visual field examination are explored including those of monocular binocular and junctional field defects congruity vs incongruity macular sparing vs macular splitting density wedge shaped homonymous field loss and monocular temporal crescent Various new techniques of automated perimetry are also considered including SITA FASTPAC and SWAP This volume provides a very useful overview of the techniques of visual field examination in a number of eye disorders and will be of interest to all ophthalmologists neuro ophthalmologists retina specialists and optometrists **Manual of Visual Fields** Elliot B. Werner, 1991 An introductory text on the interpretation of automated and manual visual fields This text discusses the history and principles of manual perimetry details modern techniques of visual field testing and describes visual field changes resulting from ophthalmic diseases The Visual Fields David O. Harrington, Michael V. Drake, 1990 Visual Fields Thomas Joseph Walsh, 1996 An acknowledged classic since it was first published as a manual 50 years ago *Visual Fields* in its second edition provides a new chapter explaining the fundamentals of automated perimetry plus another chapter on the use of computerized perimetry in glaucoma Both computerized representations and tangent screen charts are utilized

Visual Fields via the Visual Pathway, Second Edition Fiona Rowe, 2015-12-22 This book is a basic reference guide on the anatomy of the visual pathway the layout topography of the nerve fibers throughout the visual pathway typical lesions affecting each part of the visual pathway the visual field defects to be expected at each level and the associated signs and symptoms ocular and general at each level of the visual pathway It includes examples of visual field results enhanced by illustrative photographs and brain scans as appropriate to each part of the visual pathway and pathology Also included are

sections on differential diagnose and artefacts of testing New features to this edition include updated methods of visual field assessment additional descriptions of how individual visual field results should be interpreted an updated review of the pros and cons of the various available test programs and in each chapter a discussion of recent research advances and recommendations on baseline assessment diagnosis and re assessment options to promote good clinical practice decisions

Automated Visual Field Testing David E. Silverstone, Joy Hirsch, 1986 **Field of Vision** Jason J. S. Barton, Michael Benatar, 2003-04-30 A comprehensive survey on the use of bedside skills and perimetric devices to test visual fields and how to interpret the results To develop the clinician's interpretative skills the authors include a chapter on visual anatomy and an atlas of 100 real life cases arranged in anatomic order from retina to striate cortex By placing a brief clinical vignette with a visual field on one side of the page and a description of the field and its causal lesion on the opposite side the reader will be able to learn interpretation in a simulated clinical setting An additional quiz section of twenty randomly arranged visual fields provides readers with an opportunity to test their newly acquired skills **Visual Fields** David B. Henson, 1993 This is an up to date textbook on the theory and practice of visual field investigation It discusses the many different techniques that are available for the examination of the visual field for example kinetic suprathreshold and full threshold highlighting their advantages and disadvantages The book also describes many of the current visual field instruments detailing both their strategies and their techniques for analysing perimetric results There is a comprehensive chapter describing how the visual field is affected by parameters such as refractive errors and pupil size with many useful tips as to how these can be controlled and compensated for Pathologies which affect the visual field are discussed with special chapters devoted to glaucoma and the screening for glaucomatous visual field loss *The Visual Fields* David O. Harrington, 1956 Visual Field Testing with the Humphrey Field Analyzer Neil T. Choplin, Russell P. Edwards, 1995 This book is an excellent reference designed to provide the most up to date information on performing automated perimetry with the Humphrey Field Analyzer It goes step by step through important decisions regarding which type of visual field examination to choose how to interpret the results in order to obtain the most useful clinical information available This book contains invaluable facts for anyone using the Humphrey Field Analyzer **Visual Fields** Hugh F. Webb, 1940 **The Principles and Practice of Perimetry** Luther Crouse Peter, 1916 **A Comparison of Visual Fields with Fixed and Moving Fixation Points** William E. McLean, 1983 *Computer-assisted Interpretation of Visual Fields in Glaucoma* Peter Åsman, 1992 Visual Field Charting Thomas George Atkinson, 1995 **Visual Fields** Neil T. Choplin, Russell P.
