Selected Issues in Global Health Communications Muhiuddin Haider, Heather Platter, Bridget Higginbotham, 2018-09-26 This book was written to give scholars an opportunity to examine selected issues in health communication. There are many challenges in health communication such as the shortage of evaluations on social marketing interventions, the need for a framework to easily apply social marketing practices to campaigns, and the difficulty of applying theory to improve communication. To address these challenges, the four chapters, including an introductory chapter, introduce several health communication topics including social marketing, the application of theory and message design to promote social communication. Readers can expect concise topic overviews with clear steps and examples of how to apply the methods discussed in each chapter.

Health Communication Fundamentals Suruchi Sood, Amy Henderson Riley, 2023-10-10 The authors bring together a strong mix of theory, concepts, methods, practice, and research that come to life through multiple examples, experiences, and questions for reflections that any reader, whether seasoned or a newcomer into the public health communication field, should find extremely helpful and engaging. This book constitutes a significant contribution to the continuous fermentation and growth of the public health communication field.
