Zhimomi Churches in Europe have specific historical experiences regarding their relationship with the nation Although in principle it is agreed that the Christian faith is in its basic tendency shaped by a supranational even universalistic character since the 19th century at the latest it has been repeatedly asked whether nation and national identity do not belong to God s creation At present this is controversially discussed in the churches of Europe closely connected with experiences of migration Can national consciousness and current migration experiences go together Do churches have anything specific to say about this in an ecumenical perspective These are the questions addressed in this conference volume of the Societas Oecumenica
