Thats The Way It Is A History Of Television News In America:

That's the Way It Is Charles L. Ponce de Leon, 2016-09-09 Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier Charles Ponce de Leon says here in effect that this is misleading if not simply fatuous He argues in this well paced lively readable book that TV news has changed in response to broader changes in the TV industry and American culture It is pointless to bewail its decline That s the Way It Is gives us the very first history of American television news spanning more than six decades from Camel News Caravan to Countdown with Keith Oberman and The Daily Show Starting in the latter 1940s television news featured a succession of broadcasters who became household names even presences Eric Sevareid Walter Cronkite David Brinkley Peter Jennings Brian Williams Katie Couric and with cable expansion people like Glenn Beck Jon Stewart and Bill O Reilly But behind the scenes the parallel story is just as interesting involving executives producers and journalists who were responsible for the field s most important innovations Included with mainstream network news programs is an engaging treatment of news magazines like 60 Minutes and 20/20 as well as morning news shows like Today and Good Morning America Ponce de Leon gives ample attention to the establishment of cable networks CNN and the later competitors Fox News and MSNBC mixing in colorful anecdotes about the likes of Roger Ailes and Roone Arledge Frothy features and other kinds of entertainment have been part and parcel of TV news from the start viewer preferences have always played a role in the evolution of programming although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation Throughout Ponce de Leon places his history in a broader cultural context emphasizing tensions between the public service mission of TV news and the quest for profitability and broad appeal

The Origins of Television News in America Mike Conway, 2009 This is the first in depth look at the development of the television newscast the most popular source of news for over forty five years During the 1940s most journalists ignored or dismissed television leaving the challenge to a small group of people working above New York City s Grand Central Terminal Without the pressures of ratings sponsors company oversight or many viewers the group refused to recreate newspapers radio or newsreels on the new medium They experimented argued tested and eventually settled on a format to exploit television s strengths This book documents that process challenging common myths including the importance of a popular anchor and television s inability to communicate non visual stories and crediting those whose work was critical in the formation of television as a news format and illustrating the pressures and professional roadblocks facing those who dare question journalistic traditions of any era
