Rural Community Libraries in Africa: Challenges and Impacts Dent, Valeda F.,Goodman, Geoff,Kevane, Michael,2014-01-31 This book investigates the relationship between local libraries and community development from the historical roots of rural libraries to their influence on the literacy economy and culture of the surrounding region Provided by publisher **Does Reading During the Summer Build Reading Skills?** Jonathan Guryan,David M. Quinn,James S. Kim,2014 There are large gaps in reading skills by family income among school aged children in the United States Correlational evidence suggests that reading skills are strongly related to the amount of reading students do outside of school Experimental evidence testing whether this relationship is causal is lacking We report the results from a randomized evaluation of a summer reading program called Project READS which induces students to read more during the summer by mailing ten books to them one per week Simple intent to treat estimates show that the program increased reading during the summer and show significant effects on reading comprehension test scores in the fall for third grade girls but not for third grade boys or second graders of either gender Analyses that take advantage of within classroom random assignment and cross classroom variation in treatment effects show evidence that reading more books generates increases in reading comprehension skills particularly when students read carefully enough to be able to answer basic questions about the books they read and particularly for girls Dear Parents ,1966 **Indian Education** ,1955 **Journal of Youth Services in Libraries** ,1997 Journal Minnesota Education Association,1925 *Show-me Libraries* ,1979 **The Congregationalist** ,1927 Iowa Administrative Bulletin ,2017-07 School Library Journal ,2008 *Summer Reading Renaissance* Rita Soltan,2008-09-30 Energize your library summer reading program with this new approach that involves all ages and rekindles the desire for children and families to read together for recreation pleasure and their own curiosity No more counting hours or books no rewards and awards just reading and learning fun Drawing on the methodology of museums

and learning centers Soltan offers practical guidelines for designing an interactive centers based program and presents four complete themed units that include complete directions for sample projects materials lists and suggested books She also shows you how to build interest secure funding work with vendors and use technology as well as how to train staff create a coordinated intergenerational volunteer and school based community service effort and how to evaluate your program This is a creative hands on approach that will get readers involved and keep them involved summer after summer and all summer long
