## **Surface Consciousness:**

**Become Conscious of Wholeness** Edwin E. Olson, 2021-11-30 How can we transcend our tribal philosophical and religious differences Is it possible to develop a global consciousness to resolve the peril to our biosphere and other human made existential crises Become Conscious of Wholeness Humanity's Only Future explores how connecting human consciousness with Universal Consciousness will give individuals and societies a sense of being complete not fragmented Accessing Universal Consciousness the fundamental wisdom intelligence and love in the Universe will align their identity and purpose and free them from limiting beliefs and fears Universal Consciousness is the organizing unifying force beyond space and time filled with the creative potential from which our diverse philosophies religions and primordial traditions emerged When Consciousness is understood from multiple scientific spiritual psychological and mystical perspectives what is of ultimate value becomes clear our relationships with each other and the Earth our essential Wholeness The reader will explore various portals to Universal Consciousness drawing upon their own mystical and spiritual experience to develop a more holistic Self Specific action steps are also presented to reframe religion reimagine education and mental wellbeing and reform the business organizations government agencies and divisive politics that perpetuate a fragmented view of reality

**Surface Consciousness** Mark Taylor, 1993      PHILOSOPHY OF HINDU SADHANA BRAHMA, NALINI KANTA, 2008-12-15 None else could have made a better presentation on the practice side of Hindu religion with its underlining concepts of Hindu faith than Dr Nalini Kanta Brahma His classic work Philosophy of Hindu Sadhana is now being relaunched in the Eastern Economy Edition for the benefit of students researchers and all those who have an abiding interest in philosophy and religion The author stresses those characteristics of Hindu religion that bring out its kinship with the higher religious thoughts of the world so that the reader can discern a common fabric of organic unity of higher religions The text brings to fore the correlation between theory and practice of different Hindu philosophical systems Sadhana the instrument to attain perfection as propounded in Hindu Philosophy being a means to a better end has been discussed in the text in its various forms as followed by different religious systems of the Hindus Part I of the book deals with the function and characteristics of Hindu Sadhana in general Part II elucidates the specific forms of Hindu Sadhana that includes Karma the path of prescribed actions Jnana the path of higher intellect and Bhakti the path of devotional worship The book also deals with Yoga the form of Sadhana as propounded by Patanjali Finally it emphasizes the importance and value of discipline and devotion that are inherent in the good practice of Hindu religion      *An Analysis of Sri Aurobindo's The Life Divine* Roy Posner, 2018-01-06 Growth Online author and founder Roy Posner presents a chapter by chapter analysis of Sri Aurobindo's metaphysical treatise The Life Divine perhaps the most profound book ever written on the nature of spirit creation life evolution and human potential      **The Challenge of The Mind** Ryuho Okawa, 2018-11-15 The Challenge of the Mind is an excellent guide to exploring the infinite potential of our mind from Buddha's perspective In this book author Ryuho Okawa

shows how we can apply the essential teachings of Buddha to our lives and cultivate deep wisdom and promote a happy peaceful everyday life Through expounding such principles as the laws of cause and effect egolessness and the middle way in simple clear but thoughtprovoking language Okawa imbues a new life into the traditional Buddhist teachings and offers a solid basis of reason and intellectual understanding to oftenovercomplicated teachings Chapter 1 focuses on the topic of the law of cause of effect which essentially says that the seeds we sow and grow will determine the kind of life we will lead In Chapter 2 Okawa shows how we can develop our Buddhanature or a divine nature so we can cultivate our potential for living fully at the highest level and at the same time achieve harmony with others in society Chapter 3 discusses the essence of meditation Okawa shows how we can receive light and guidance from heaven and use it as a source of power to spread goodness in this world Chapter 4 is about achieving transcendental wisdom which is a state of enlightenment that lets us see ourselves and the world from a broad perspective with a selfless heart In Chapter 5 Okawa expounds on the teaching of egolessness which leads us to experiencing oneness with Buddha and lets us discover the strong power of enlightenment that dissolves all worldly sufferings pains and attachments Chapter 6 focuses on the teaching of the middle way It shows how we should avoid extremes and discover our true nature as children of Buddha In Chapter 7 Okawa discusses that although spiritual experiences are vital to acquiring a higher state of mind spiritual power alone does not lead us to the attainment of enlightenment Chapter 8 defines karma as the tendencies of our mind and heart Karma whether individual or collective is formed by the choices we make and the actions we take To improve our karma and create a brighter future it is vital that we share the spiritual truths with as many people as possible and pursue our spiritual growth in the way that benefits others Enlightenment is not just an abstract idea but is a state of mind that we can achieve as long as we continue our endeavor to seek higher awareness earnestly and honestly By applying these fundamental principles to our lives we can direct our minds to higher ideals and carve out a path to a bright future

*English Bilingual Project* Mathew Varghese,2022-10-31 Today English is the global lingua franca and competent English communication skills should be one of the rights of all educated individuals irrespective of any socio cultural limits By introducing a new method this book focuses on helping any learner to get sufficient communication skills in English as much as in the native language This method helps one to avoid translating from mother tongue to English And by using the method of thinking in English one could acquire the required English bilingual skills naturally The method is founded on the philosophical idea of mentalese mind language as the base language of thinking available for humans for constructing thoughts The proposed English Bilingual Project EBP helps one to transfer thoughts from a structureless mentalese to the grammatical structure of any language English Japanese Chinese The method described in this book works in two ways one it helps one to intuitively understand the working of mentalese the other is by practicing think in English with the mentalese one could generate the bilingual brain The main procedure for transferring thoughts from the mentalese to English is through writing one s thoughts This helps one to think effectively in English like

one's own mother tongue This method works as a prime requirement model for one to generate multilingual skills The book resourced the idea of mentalese from the classical philosophy reflects it with the modern generative theories links it with the studies in neuro linguistic studies on bilingualism and the bilingual brain     Letters on Natural Magic David Brewster,1883
