## **Tax Bracket Tips:**

*The Money-making Guide to Bonds* Hildy Richelson, Stan Richelson, 2002 Bonds are the financial Cinderellas of the new millennium. Investors became aware of their charms when they saw their stock portfolios tanking while bonds were delivering double digit returns. With the discovery that bonds could be a lucrative as well as a safe investment came a major problem: no single source of easily accessible information has been available that uniformly describes bonds, compares their relative strengths and drawbacks, and tells how to select and profit from buying them. Until now, registered investment advisers Hildy and Stan Richelson have written *The Money Making Guide to Bonds* to serve as this solid and thorough yet user friendly resource on the subject. Over 35 different types of bonds and 20 types of bond funds are described, highlighting the specific advantages, risks and tax implications of each. The stock market decline clearly demonstrated to investors that bonds belong in every portfolio. *The Money Making Guide to Bonds* not only gives readers the information they need to select bonds suited to their needs but also tells them how to allocate bonds within a portfolio and then concludes with specific strategies for reducing taxes and increasing income.

**The Bogleheads' Guide to Investing** Mel Lindauer, Taylor Larimore, Michael LeBoeuf, 2021-11-23 The irreverent guide to investing Boglehead style. *The Boglehead's Guide to Investing* is a DIY handbook that espouses the sage investment wisdom of John C. Bogle. This witty and wonderful book offers contrarian advice that provides the first step on the road to investment success: illustrating how relying on typical common sense promoted by Wall Street is destined to leave you poorer. This updated edition includes new information on backdoor Roth IRAs and ETFs as mainstream buy-and-hold investments, estate taxes and gifting, plus changes to the laws regarding Traditional and Roth IRAs and 401k and 403b retirement plans. With warnings and principles both precisely accurate and grandly counterintuitive, the Boglehead authors show how beating the market is a zero sum game. Investing can be simple but it's certainly not simplistic. Over the course of twenty years, the followers of John C. Bogle have evolved from a loose association of investors to a major force with the largest and most active non-commercial financial forum on the Internet. *The Boglehead's Guide to Investing* brings that communication to you with comprehensive guidance to the investment prowess on display at Bogleheads.org. You'll learn how to craft your own investment strategy using the Bogle proven methods that have worked for thousands of investors and how to choose a sound financial lifestyle and diversify your portfolio. Start early, invest regularly and know what you're buying. Preserve your buying power, keeping costs and taxes low. Throw out the good advice promoted by Wall Street that leads to investment failure. Financial markets are essentially closed systems in which one's gain garners another's loss. Investors looking for a roadmap to successfully navigating these choppy waters long term will find expert guidance, sound advice and a little irreverent humor in *The Boglehead's Guide to Investing*.

*The Bogleheads' Guide to Investing* Taylor Larimore, Mel Lindauer, Michael LeBoeuf, 2006-04-20 Within this easy-to-use, need-to-know, no-frills guide to building financial well-being is advice for long-term wealth creation and happiness without all the worries and fuss of stock pickers and day
