**Health Promotion in Midwifery** Jan Bowden, Vicky Manning, 2016-11-25 Health Promotion in Midwifery explores the principles of health promotion within the practical context of midwifery. It clearly outlines and discusses the midwife's role in health promotion linking theory and practice. The third edition of this evidence-based text covers essential topics such as breastfeeding, smoking, mental health, behaviour change and sexual health promotion and includes new chapters on healthy eating in pregnancy, pelvic floor health during the childbearing years and violence against women. All the chapters are updated and some are completely rewritten to reflect recent changes and developments in midwifery practice. Text boxes make the text accessible and user friendly and case studies and summaries put the material in practical context. Additional readings encourage readers to further research and reflection on their own practice. This textbook is essential reading for midwives and health visitors in education and practice.

**Benefit-Risk Assessment Methods in Medical Product Development** Qi Jiang, Weili He, 2017-12-19 Guides You on the Development and Implementation of B R Evaluations. Benefit Risk Assessment Methods in Medical Product Development Bridging Qualitative and Quantitative Assessments provides general guidance and case studies to aid practitioners in selecting specific benefit risk B R frameworks and quantitative methods. Leading experts from industry, regulatory agencies and academia present practical examples, lessons learned and best practices that illustrate how to conduct structured B R assessment in clinical development and regulatory submission. The first section of the book discusses the role of B R assessments in medicine development and regulation, the need for both a common B R framework and patient input into B R decisions and future directions. The second section focuses on legislative and regulatory policy initiatives as well as decisions made at the U S FDA's Center for Devices and Radiological Health. The third section examines key elements of B R evaluations in a product's life cycle such as uncertainty evaluation and quantification, quantifying patient B R trade off preferences, ways to identify subgroups with the best B R profiles and data sources used to assist B R assessment. The fourth section equips practitioners with tools to conduct B R evaluations including assessment methodologies, a quantitative joint modeling and joint evaluation framework and several visualization tools. The final section presents a rich collection of case studies. With top specialists sharing their in-depth knowledge, thought-provoking considerations and practical advice, this book offers comprehensive coverage of B R evaluation methods, tools and case studies. It gives practitioners a much-needed toolkit to develop and conduct their own B R evaluations.
