separate spaces These might be in coffee shops in community centres in one another s homes or in semi public spaces such as workers clubs even cinemas When the proletariat was rebelling they did not ask the capitalists and aristocracy to join them even if a few did when the civil rights movement started it was not thanks to the ideas and politics of white people even though some whites joined to support the cause when the women s liberation movement sprang into life it was women joining together to fight against their oppression The difference is that women are supposed to love men Through careful argument Susan Hawthorne takes us through the ideas which are central to her argument She analyses the nature of power oppression domination and institutions and applies these to heterosexuality rape and romantic love She concludes with a call for women all women no matter their sexuality to have separate spaces so they can work together to change the world and end patriarchy This 2019 edition includes a Preface Afterword and additional commentary in italicised footnotes that bring the reader up to date on changes developments and controversies in feminist theory
