A law banning TikTok has been enacted in the U.S. Unfortunately, that means you can't use TikTok for now.

We are fortunate that President Trump has indicated that he will work with us on a solution to reinstate TikTok once he takes office. Please stay tuned!

## Tiktok Usa Returns:

*The Return of Industrial Policy in Data* Simon Evenett, Adam Jakubik, Fernando Martín, Michele Ruta, 2024-01-04 This paper introduces the New Industrial Policy Observatory NIPO dataset and documents emergent patterns of policy intervention during 2023 associated with the return of industrial policy. The data show that the recent wave of new industrial policy activity is primarily driven by advanced economies and that subsidies are the most employed instrument. Trade restrictions on imports and exports are more frequently used by emerging market and developing economies. Strategic competitiveness is the dominant motive governments give for these measures but other objectives such as climate change resilience and national security are on the rise. In exploratory regressions we find that implemented measures are correlated with the past use of measures by other governments in the same sector pointing to the tit for tat nature of industrial policy. Furthermore domestic political economy factors and macroeconomic conditions correlate with the use of industrial policy measures. We intend for the NIPO to be a publicly available resource to help monitor the evolution and effects of industrial policies.
