Tuning Into Mom Understanding Americas Most Powerful Consumer:

Tuning into Mom Michal Clements, Teri Lucie Thompson, 2011-10-15 American mothers are household CFOs in charge of an estimated 2.45 trillion in direct spending. They are also an important influence on other family members' buying habits. Many organizations have identified moms as an important customer group, but the broad age-based definitions these companies work with mask an array of different consumer behaviors. Written by two leading marketers, this book provides a new approach to understanding the American Mom market, examining the effect of age of the eldest child on women's values and attitudes to food, exercise, education, health, technology, and fashion. The authors examine the mom's influence on or control of the purchasing habits of children of all ages from infants and toddlers to young adults. In doing so, it brings focus to the frequently overlooked purchase influence of moms on teenagers. The authors combine large-scale quantitative research of more than 4,700 mothers with qualitative case studies from individual participants. The authors also draw on decades of real-world experience to combine their research with implementable examples of best practice. Highly recommended for practitioners in retailing and product development, this book will also be a valuable supplemental text for college courses in consumer behavior and marketing strategy.

Motherhoods, Markets and Consumption Stephanie O'Donohoe, Margaret Hogg, Pauline Maclaran, Lydia Martens, Lorna Stevens, 2013-10-30 It takes more than a baby to make a mother, and mothers make more than babies. Bringing together a range of international studies, *Motherhoods, Markets and Consumption* examines how marketing and consumer culture constructs particular images of what mothers are, what they should care about, and how they should behave, exploring how women's use of consumer goods and services shapes how they mother, as well as how they are seen and judged by others. Combining personal accounts from many mothers with different theoretical perspectives, this book explores how advertising, media, and consumer culture contribute to myths and stereotypes concerning good and bad mothers. How particular consumer choices are bound up with women's identities as mothers. The role of consumption for women entering different phases of their mothering lives, such as pregnancy, early motherhood, and the empty nest.
