## **Tropical Peatland Ecosystems Mitsuru Osaki:**

**Tropical Peatland Ecosystems** Mitsuru Osaki, Nobuyuki Tsuji, 2015-12-07 This book is an excellent resource for scientists political decision makers and students interested in the impact of peatlands on climate change and ecosystem function containing a plethora of recent research results such as monitoring sensing modeling for carbon water flux storage biodiversity and peatland management in tropical regions It is estimated that more than 23 million hectares 62 % of the total global tropical peatland area are located in Southeast Asia in lowland or coastal areas of East Sumatra Kalimantan West Papua Papua New Guinea Brunei Peninsular Malaysia Sabah Sarawak and Southeast Thailand Tropical peatland has a vital carbon water storage function and is host to a huge diversity of plant and animal species Peatland ecosystems are extremely vulnerable to climate change and the impacts of human activities such as logging drainage and conversion to agricultural land In Southeast Asia severe episodic droughts associated with the El Niño Southern Oscillation in combination with over drainage forest degradation and land use changes have caused widespread peatland fires and microbial peat oxidation Indonesia's 20 Mha peatland area is estimated to include about 45 55 GtC of carbon stocks As a result of land use and development Indonesia is the third largest emitter of greenhouse gases 2 3 Gtons carbon dioxide equivalent per year 80 % of which is due to deforestation and peatland loss Thus tropical peatlands are key ecosystems in terms of the carbon water cycle and climate change

**Tropical Peatland Eco-management** Mitsuru Osaki, Nobuyuki Tsuji, Nazir Foad, Jack Rieley, 2021-04-09 In this Tropical Peatland Eco management book eco management is new terminology as an abbreviation of ecology based management for natural capital enhancement Key concept on this eco management is derived from previous book Tropical Peatland Ecosystem Springer 2015 eds by M Osaki and N Tsuji Based on this new concept this book thoroughly examines tropical peatland eco management for scientists political decision makers governmental officials land managers students and NGO NPOs who are interested in 1 what the impact of peatland on climate change and ecosystem function 2 how the management of disturbed peatland and 3 drawing global scale restoration mechanisms of peatland and wetland In tropical peatland a large amount of GHGs carbon dioxide methane and nitrous oxide is emitted due to the inappropriate development and inadequate management of peatland The peatland ecosystems consist of the carbon water complex which is affected easily by the impact of human and climate change Throughout much research of tropical peatland the problems that result from development of tropical peatland are found to stem mainly from a lack of understanding of the complexities of this ecosystem and the fragility of the relationship between peat and forest and also between carbon and water In past almost all peatland development and management system have been generally designed on water drainage system On the contrast of old system an innovated eco management is here proposed as water irrigation system including water cycling and natural capital enhancement Through this book readers will learn the advanced peatland eco management with more practical methods and procedure based on ecosystem knowledge

**Tropical Peatland Eco-evaluation** Mitsuru

Osaki,Nobuyuki Tsuji,Tsuyoshi Kato,Albertus Sulaiman,2024-01-13 This book focuses on eco evaluation system monitoring and sensing carbon water modeling mapping and disaster prediction It is the 3rd book on tropical peatland issues following 1st Tropical Peatland Ecosystem and 2nd Tropical Peatland Eco management publications Tropical peatland is also a wetland mangrove and rainforest With this nature two major key elements of tropical peatland are water and forest This book introduces the relationship and interaction among water oxygen and nutrients as well as aspects of the forest as the driving force of carbon stock and the carbon cycle Eco evaluation system is key to conserving managing and restoring tropical peatlands however comprehensive system for Eco evaluation in the Tropics is not yet established This book reviews and proposes Eco evaluation methods in the Tropics Ecosystem focusing mainly on the peatland ecosystem and others covering Social Capital such as Credit Bonds National Accounting etc      **Stability, Growth and Sustainability** Aris Ananta,Chang Yau Hoon,Mahani Hamdan,2023-01-18 As in many other oil and gas dependent countries Brunei Darussalam a country with a small population but the second highest income per capita in Southeast Asia has been diversifying its economy in three sectors from oil and gas to other sectors of export economic growth from the dominance of public sector employment to a more balanced public and private sectors employment and from heavy dependence on foreign labours to development of local talents This book examines the current socio economic development in the journey toward a diversified social economy as targeted in Brunei Vision 2035 By examining the unique context of Brunei this book fills in the gap on studies focusing on socio economic diversification It highlights the importance of the environment digital technology and human capital in the diversification process The book culminates with analyses on business economy employment and welfare in Brunei toward 2035 with a new face a digitalized sustainable and self reliant society with a highly developed human capital and a flourishing private sector This is a very useful analysis of the challenges facing Brunei Darussalam as the country prepares itself for the 21st century We are in an unprecedented period of human connectivity facilitated by an increasingly digitalised and high tech world The transition which the people policy and business sectors have to undergo and survive is a fascinating learning journey for a small state This book has succinctly highlighted the experiences we should pick up and apply where relevant for our respective countries going forward Ambassador Ong Keng Yong Executive Deputy Chairman S Rajaratnam School of International Studies Nanyang Technological University Singapore and the 11th Secretary General of ASEAN This forward looking study of the Brunei economy is timely and topical Appropriately the authors identify diversification as the country s key economic challenge in preparation for the exhaustion of oil reserves and as the world progressively decarbonises To this end they set out a comprehensive reform agenda focused on education the labour market social policy the development of non oil industries environmental objectives and much else This is a very useful and informative guide not only for the Brunei government and society but also for neighbouring ASEAN member states Professor Emeritus Hal Hill Australian National University This collection fills a considerable gap in our knowledge of the socio economic circumstances

and developmental trajectories of Brunei Darussalam In particular it serves as a major and much needed contribution to our understanding of the challenges of economic diversification in an oil and gas dependent sultanate Professor Emeritus Victor T King University of Leeds This book aims to identify and discuss the various issues about challenges faced by and opportunities from Brunei s diversification of her oil dependent economy in response to the changing economic landscape at the national regional and global levels The various chapters provide a comprehensive analysis of the different sectors of Brunei s economy and the authors clear discussion of their arguments and justifications that are substantiated with relevant data and graphical illustrations and a wide range of primary and secondary materials I would like to congratulate the authors for this excellent book and recommend it to those who are interested in knowing and understanding Brunei s economy Associate Professor Teofilo C Daquila National University of Singapore

**The Road to Nusantara: Process, Challenges and Opportunities** Julia M Lau, Athiqah Nur Alami, Siwage Dharma Negara, Yanuar Nugroho, 2023-07-11 The collective research effort of senior and junior scholars from Indonesia and beyond The Road to Nusantara Process Challenges and Opportunities examines the political economic socio cultural security and environmental implications of President Joko Widodo s historic plan to move Indonesia s national capital from Jakarta to Nusantara East Kalimantan This volume will be of interest to policymakers Indonesia s neighbours near and far prospective investors and students of Indonesia who wish to understand the complex challenges underlying this megaproject The chapters in this book are important contributions to the study of Indonesia today Ground breaking and meticulously documented using post independence archival material and contemporary essays on new capitals Essential reading for a better understanding of the impetus behind Nusantara made even more critical as the future of Nusantara hangs in the balance Edward Lee Kwong Foo Chairman of Indofood Agri Resources Ltd and former Singapore s Ambassador to Indonesia 1994 2006

**The Biodiversity Observation Network in the Asia-Pacific Region** Shin-ichi Nakano, Tetsukazu Yahara, Tohru Nakashizuka, 2012-07-26 Biological diversity is important for ecosystem function and services which in turn is essential for human well being Under the Convention on Biological Diversity international efforts have been made to achieve a significant reduction in the current rate of biodiversity loss The loss continues however The Asia Pacific region includes both developing countries with high biodiversity and developed countries with sophisticated data collection and analyses but only limited information about the status quo of biodiversity in this region has been available Many Asia Pacific countries have rapidly grown their economies and social infrastructures causing a loss of biodiversity and requiring an urgent mandate to achieve a balance between development and conservation in the region In December 2009 scientists successfully organized the Asia Pacific Biodiversity Observation Network in the region to establish a network for research and monitoring of ecosystems and biodiversity and to build a cooperative framework The present volume is the first collection of information on biodiversity in the Asia Pacific and represents a quantum step forward in science that optimizes the synergy between development and biodiversity conservation
