Truth Matters Lambert Zuidervaart,Allyson Carr,Matthew J. Klaassen,Ronnie Shuker,2014-01-07 A pioneering study of why truth is important in philosophy public culture and everyday life   *Truth Matters* Ronnie Shuker,Matthew Klaassen,Allyson Carr,Lambert Zuidervaart,2013   **Truth Claims Across Media** Beate Schirrmacher,Nafiseh Mousavi,2023-12-20 This book offers an intermedial approach to truthful communication Bringing together a wide range of media types and interactions from a transmedial perspective the volume maps out how truth claims are made in different contexts and how different media promise to create a truthful perception of the social world The flexible communicative possibilities of digital technology have a significant impact on our perception of truth and truthfulness of communication Bot accounts deep fake videos or AI technology draw attention to how reliable communication is destabilized and questioned In this unstable climate binaries such as true false authentic fake and fiction facts are difficult to apply Instead it is crucial to investigate how media products construct truthfulness in different ways The volume brings together various media types and contexts such as press conferences documentaries and mockumentaries images in magazines and on social media horror movies biopics and educational games and explores how truth claims authenticity discourses and knowledge communication are established and how they collide merge or are confused This is an open access book   Social Domains of Truth Lambert Zuidervaart,2023-03-10 Truth is in trouble In response this book presents a new conception of truth It recognizes that prominent philosophers have questioned whether the idea of truth is important Some have asked why we even need it Their questions reinforce broader trends in Western society where many wonder whether or why we should pursue truth Indeed some pundits say we have become a post truth society Yet there are good reasons not to embrace the cultural Zeitgeist or go with the philosophical flow reasons to regard truth as a substantive and socially significant idea This book explains why First it argues that propositional truth is only one kind of truth an important kind but not all important Then it shows how propositional truth belongs to the more comprehensive process of truth as a whole This process is a dynamic correlation between human fidelity to societal principles and a life giving disclosure of society The correlation comes to expression in distinct social domains of truth where either propositional or nonpropositional truth is primary The final chapters lay out five such domains science politics art religion and philosophy Anyone who cares about the future of truth in society will want to read this pathbreaking book   *Seeking Stillness or The Sound of Wings* Hector Acero Ferrer,Michael DeMoor,Peter Enneson,Matthew Klaassen,2021-03-11 Seeking Stillness or The Sound of Wings pays tribute to Lambert Zuidervaart one of the most productive Reformational philosophers of the present generation by picking up the central concerns of his philosophical work art truth and society and working with the legacy of his published concern to see what more can be understood about our world in light of that legacy Zuidervaart is an internationally recognized expert in critical theory especially the work of Theodor Adorno and a leading systematic philosopher in the reformational tradition His research and

teaching range across continental philosophy epistemology social philosophy and philosophy of art with an emphasis on Kant Hegel Marx Heidegger Gadamer and Habermas He is currently developing a new conception of truth for an allegedly post truth society At the Institute for Christian Studies 2002 2016 Zuidervaart held the Herman Dooyeweerd Chair in Social and Political Philosophy and served as founding Director of the Centre for Philosophy Religion and Social Ethics He was also an Associate Member of the Graduate Faculty and Full Professor status only in the Department of Philosophy at the University of Toronto and a member of the Advanced Degree Faculty at the Toronto School of Theology Zuidervaart is currently a Visiting Scholar in the Department of Philosophy at Calvin University in Grand Rapids Michigan Seeking Stillness or The Sound of Wings seeks to promote new scholarship emerging from the rich and dynamic tradition of reformational intellectual inquiry Believing that all scholarly endeavor is rooted in and oriented by deep spiritual commitments reformational scholarship seeks to add its unique Christian voice to discussions about leading questions of life and society From this source it seeks to contribute to the redemptive transformation and renewal of the various aspects of contemporary society developing currents of thought that open human imagination to alternative future possibilities that may helpfully address the damage we find in present reality As part of this work Currents in Reformational thought will bring to light the inter and multi disciplinary dimensions of this intellectual tradition and promote reformational scholarship that intentionally invites dialogue with other traditions or streams of thought **Shattering Silos** Lambert Zuidervaart,2022-08-15 Questions first raised by Hannah Arendt in the 1960s take on new urgency in the post truth era as political leaders blithely reject facts in the public domain Is truth politically impotent Are politics inherently false Is the search for truth still relevant Shattering Silos a companion volume to Religion Truth and Social Transformation and Art Education and Cultural Renewal provides a path breaking response As in his two previous books Lambert Zuidervaart challenges the boundaries philosophers set up between epistemology ethics and political philosophy Knowledge he argues takes different forms in various social domains and all are subject to political struggle A critique of contemporary society must draw on many social domains of knowledge including the arts and religion and should recast politics as a striving for truth in the broadest sense Proposing a new conception of truth one that emphasizes the unity of knowledge and truth as well as their diversity among different social domains Zuidervaart asks what such holism and pluralism suggest about how we understand politics and society This book proposes a new understanding of large scale social change challenging how most people think about knowledge and truth Interweaving epistemology social criticism and political thought Shattering Silos aims to help redirect an allegedly post truth society
