The Well Built Triathlete Turning Potential Into Performance:

The Well-Built Triathlete Matt Dixon, 2014-05-29 In *The Well Built Triathlete* elite triathlon coach Matt Dixon reveals the approach he has used to turn age group triathletes into elite professionals. Instead of focusing narrowly on training and workouts, Dixon reveals a more comprehensive approach that considers the whole athlete. Dixon details the four pillars of performance that form the foundation of his highly successful purplepatch fitness program, showing triathletes of all abilities how they can become well built triathletes and perform better year after year. *The Well Built Triathlete* gives equal weight to training and workouts, recovery and rest, daily nutrition, and functional strength. Dixon considers the demands of career and family and the ways different personality types prefer to approach training. *The Well Built Triathlete* helps triathletes apply Dixon's approach to their season and training plan. Chapters on swimming, cycling, and running explain the most effective ways to train for each. A purplepatch section shows how triathletes can peak their fitness for long streaks of high performance. Dixon's holistic whole body approach to triathlon will help triathletes become greater than the sum of their workouts. By becoming better all around athletes, well built triathletes will train and race faster than ever. **Fast-Track**

Triathlete Matt Dixon, 2017-10-18 Lays out all the elements needed to succeed and excel at triathlon without compromising the other important things in your life like family, friends, and sleep. In *Fast Track Triathlete*, elite triathlon coach Matt Dixon offers his plan of attack for high performance in long course triathlon without sacrificing work or life. Developed for busy professionals with demanding schedules, the *Fast Track Triathlete* program makes your PR possible in Ironman, Ironman 70.3, Rev3, and Challenge triathlon in about 10 hours a week. Training for long course triathlons once demanded 15-20 hours each week on top of work, family, travel, and other time commitments. For many, preparing for long distance triathlon is more challenging than the race itself. *Fast Track Triathlete* opens the door to your best performance in full and half distance triathlons in half the traditional training time. Dixon's laser focused, effective approach to workouts, recovery, strength, and mobility, and nutrition means you can prepare for triathlon's greatest challenges in just 7-10 hours per week for half distance and 10-12 hours per week for full distance. *Fast Track Triathlete* includes Dixon's complete guide to creating a successful sport and life performance recipe. How to plan out your triathlon training. Scaling workouts for time and fatigue. Training and racing during travel. Executing your swim, bike, run, and transitions plan on race day. 10 week off season training program with key workouts. 14 week pre season training program with key workouts. 14 week comprehensive race prep. Full and half training plans with fully integrated strength and conditioning. Dixon's first book *The Well Built Triathlete* revealed his four tiered approach to success in all triathlon race distances. *Fast Track Triathlete* turbocharges Dixon's well built program so even the busiest athletes can achieve their long distance triathlon dreams without sacrificing so much to achieve them. What other athletes are saying about *FAST TRACK TRIATHLETE*: "I went from marathons and sprint tri straight to a full Ironman in 1 year while overcoming an injury with this plan. The importance of sleep, rest, quality vs quantity, endurance AND strength."
